

BLACK LIST!

This contains a list of things that are my triggers and make me uncomfortable which are best to avoid!

-Most Cannon X Cannon ships!

There are some Cannon X Cannon ships I actually do like but the ones to avoid are listed here:

Krillin X 18 (Dragon Ball Z series)

Sonic X Amy (Sonic the Hedgehog)

Scarlett X Max (Total Drama)

Bartleby X Sonia (Sonic Underground)

Jyushimatsu X Homura (Osomatsu-san)

Totoko X Any of the Matsuno brothers (Osomatsu-san)

Harima X Tenma (School Rumble)

Harima X Eri (School Rumble)

Goku X Chi-Chi (Dragon Ball Z series)

Bomb Guy X Rob (TAWOG)

Bomb Guy X Rachel (TAWOG)

Any of the Matsuno brothers with any cannon character. I only ship them with my own OCs and other people's self inserts and OCs.

Tails X Cream (Sonic the Hedgehog series)

-People from my past who have bullied or harassed me or things between us just didn't work out.

I don't like bringing up the past. I would rather leave it in the past and keep moving forward with my life. So please don't mention people who are not my friends anymore to me. I have my life and they have theirs.

-Pulling me into drama. Seriously, just don't. I don't need a headache from ridiculous drama. Settle it yourselves. I would rather talk about happy things with my friends and followers.

I will continue to add to this as more things come to mind.
