

Privacy Policy

This Privacy Policy describes the information collected by MFM Music Radio through our mobile Internet-radio applications and how we use that information.

We take privacy seriously.

Our Apps:

- Do not collect any user information
- Require permission to read your phone call state (android.permission.READ_PHONE_STATE) to pause the music playback while you answer you calls and restore the playback after you have finished.
- Do not contain in-app purchases, unless specified on Google play and iTunes (AppStore)

Anonymous information that we get about you from other services such as Google Analytics, Google Play and others includes: information about the installation (for example, operating system type and application version number), information about the device (hardware model and the version of the operating system) and users behavior information.

All data that we collect is used for internal analysis and research to improve our products and make it better for you.

We are not responsible for the use of our applications of failures in devices or breakage.

Our Privacy Policy may change from time to time. We will post any Privacy Policy changes on this page.

If you have any questions or concerns about our privacy policies, please contact us:
