

DELIVERY PARTNER ONBOARDING VIDEO SCRIPT

INTRO

Hey there, I'm XYZ and in this video, I'm going to share with you a little bit about Kaarro's Delivery Partner Program and what to expect if you're planning to start your delivery business with Kaarro.

If you're watching this video, you're probably someone who values the freedom to work and earn on your own terms. Whether you're looking to build your own side-hustle or start your own delivery business, Kaaro is your best bet. We're here to empower and encourage you to achieve your goals!

We want you to hold the reins of your delivery business by taking charge of your work and earnings. We provide you with the platform to acquire customers and the technology needed to simplify the delivery process. It's as simple as that.

BODY

All you need to get started is a smartphone with an internet connection, some space to store customer packages, and a vehicle to deliver. You don't need work experience and you certainly don't need to spend 10 hours a day slogging to earn as a Delivery Partner.

Now, let's talk a little bit about the type of work you can expect.

I'll be the first one to assure you that earning as a Delivery Partner is super easy and beneficial. However, it's not a get-rich-quick-scheme. Like all side hustles, you'll have to put in hard work for long-term growth.

Yes, you get to choose your work hours, the pace at which you work, the customers you want to deliver to, and the freedom to earn on your own terms. However, you need to realize that the role comes with its set of responsibilities.

You'll have to invest time in designing a personal portfolio to attract customers. You can write about your interests, your work, or anything that you think will help grow your customer base.

After you start receiving customer requests, you have to invest time and effort into building a trustworthy relationship with them. The better customer experience you

provide as a delivery partner, the more profit you are likely to earn through tips and word-of-mouth.

At Kaaro, we believe in treating customers with respect and kindness. By focusing on building your customer base through these principles and honest practices, you will definitely cultivate the support of a powerful community and grow your business exponentially.

OUTRO

Simply put, the higher the quality of work, the higher the chances of achieving exponential growth for yourself and your delivery business. If this feels like something you can do to earn and grow at your own pace - you should definitely sign up for Kaarro's Delivery Partners program!

And don't worry if all this sounds a little overwhelming -you will always have tons of support and resources to help you get started.
