

Child Find/Developmental Screening

Sturgeon Bay School District offers monthly developmental screening opportunities for children ages 3-4 who are not currently enrolled in school. Each child's overall development in motor, communication, social and emotional, adaptive and cognitive skills are observed at a variety of play areas. Parents also have an opportunity to complete a screening tool. The information is used to provide the parents with a profile of their child's current development and to also provide suggestions for follow-up activities. It is also an opportunity to discuss any questions or concerns you may have in regards to your child's development. Even if you do not have any concerns regarding your child's development it is a great opportunity!
