FAQs

Does the Gleapcard expire?

- Gleapcards do not expire.
However, you have the

option to enable/disable your card anytime

Will it work even outside the country?

- Yes. Since it uses NFC and QR code technology, your Gleapcard will work wherever you are in the world

How does it work?

- Gleapcards uses NFC (Near Field Communication) and QR Code technology

For NFC, just place the card close to an NFC-enabled smartphone to prompt the phone to read the NFC tag embedded in our cards, instantly transferring the information.

Encounter a smartphone lacking NFC capabilities? No problem. Easily scan the QR code using their camera app and witness your details seamlessly appear on their phone.

Do we need to install an app?

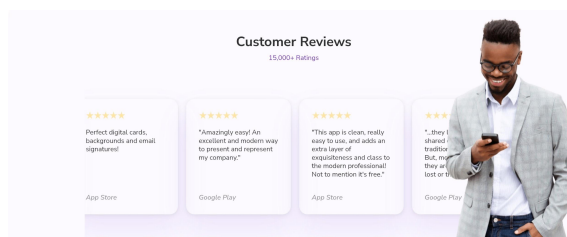

- The good thing about sharing digitally is that there's no app required

Does the CRM feature expire?

- Yes. The free CRM expires after a year. A subscription is needed after

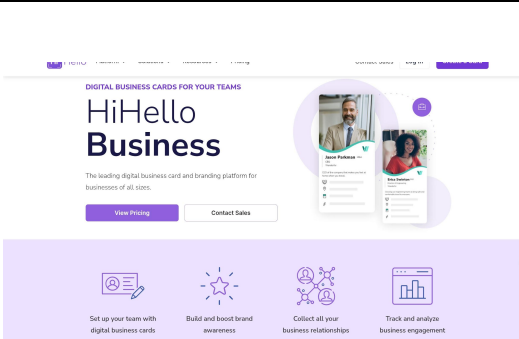

What happens when the CRM expire?

- Contact exchange will be one way and you will have no access to the contacts saved via the CRM tool. However, they can still get your number using the Gleapcard

Simple Card Sharing

Gleapcard works across all devices, and your team's digital business cards can be sent and shared with anyone, no app required!

Corporate Branding

Consistency is important. We'll match the cards to your company colors and add logo (plus name if you want)

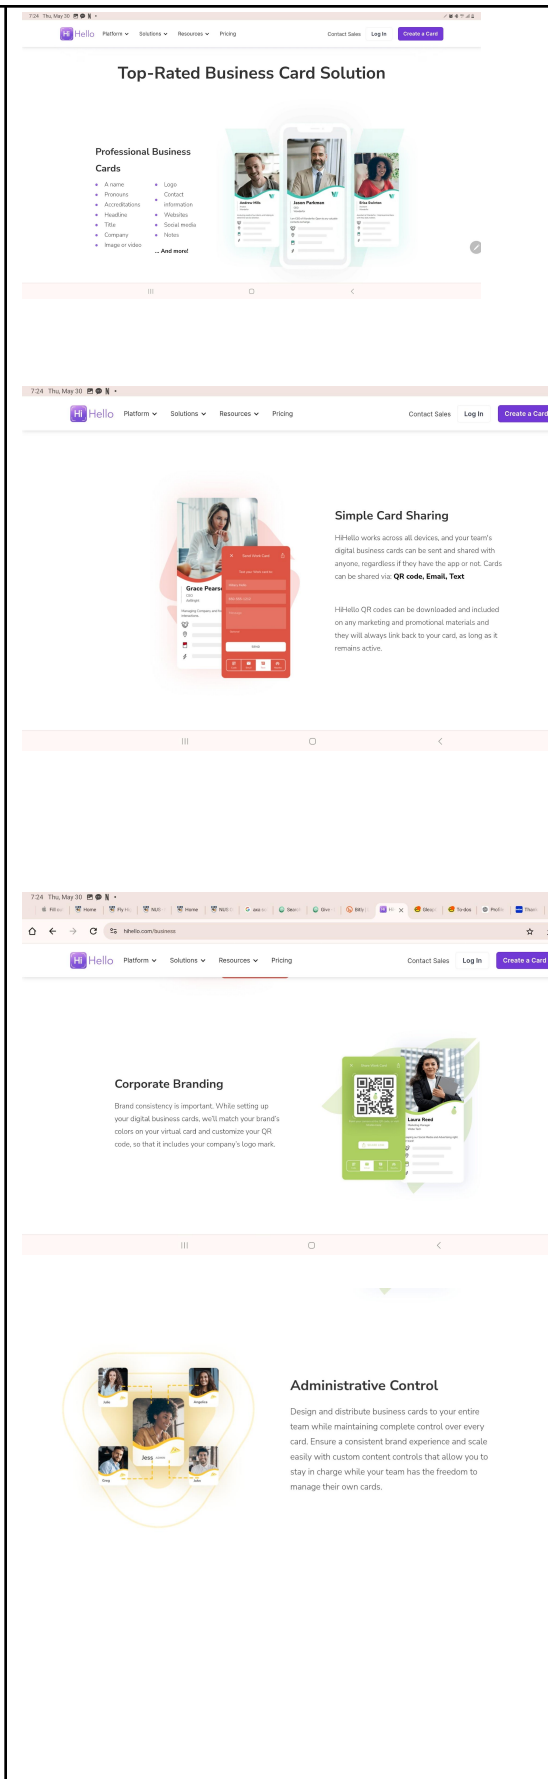

Administrative Control

Ensure a consistent brand experience and scale easily with custom content controls that allow you to stay in charge while your team has the freedom to manage their own cards.

Corporate Address Book

Prime Corporate provides visibility into all the business relationships that your company develops. There's no need to have different contact databases, so centralize all your contacts with one, easy-to-use corporate address book. Every time a team member forms a new connection, that contact's information goes directly into a shared corporate address book, allowing you to retain contacts indefinitely
