Dear Sir or Madam:

I am writing this letter of recommendation to urge you to sincerely consider Micah Sullivan for your program. I have had the distinct pleasure of having Micah in 10th grade Honors English two years ago and again last year in ACT Prep Class. I have closely followed his academic progress during the past three years. Micah is more than an ideal student. He always strives to do his very best in whatever pursuit to which he commits himself, and he is an absolute delight to be around. In order to achieve the highest grades and my deepest respect, Micah has consistently demonstrated outstanding leadership qualities; has maintained superior academic performance; and has personified true character that possesses a humble heart.

The academics at Satsuma High School are most challenging. Micah has earned an enviable grade point average of 4.5 GPA, while fulfilling all of our school's requirements with the added challenge of honors classes; advanced courses; and dual enrollment via a local university. He is on track to become top five for this 2025-2026 school year.

Additionally, Micah is a member of National Honors Society; a member of Mu Alpha Theta; a member of National Science Honor Society, and an excellent athlete who blesses our football and baseball team with fair play and leadership.

However, Micah's successes go beyond high scores and exemplary conduct. Micah's key strengths are that of collaborative teamwork, punctuality, flexibility, reliability, and dependability. I would say his best personal asset is that he is kind, fair-minded, and determined to do his best in all he endeavors.

Micah is polite and thoughtful, yet wise beyond his years. If you choose to select Micah for your program, he will be a credit to your team. Since his classmates, my fellow teachers, and I hold him in the highest esteem, I sincerely recommend Micah Sullivan as the ideal candidate for any program that is lucky enough to have him on board.

Respectfully submitted,

Jane M. deGraaf, B.S., M.A.
