

FARMERS - BOYCOTT THESE AG COMPANIES BASED IN ISRAEL
IN SUPPORT OF PALESTINE!

Listed below are Agricultural companies that are based in Israel and are helping to fund the Israeli Defense Force. The source of this list and descriptions of the companies are from the Israeli government website. The more popular companies are bolded and in larger fonts.

Boycotts are a way of taking action that pressures Israel to comply with international law and stop committing war crimes.

Farmers - please boycott these companies in support of a FREE PALESTINE AND END TO THE GENOCIDE that is currently being funded by Israel and the United States.

**If you have more to add to this list, please contact ashfarms1923@gmail.com

SOME OF THE BIGGER NAMES:

HAIFA

TEFEN

BACCARA

GALCON

NETAFIM

RIVULUS

Agriculture Companies – Agrochemicals

Adama - Adama's insecticide portfolio includes: Pyrethroids, Avermectins, Airport City
Neonicotinoids, OPs/Organochlorine carbamates, insect growth regulators.
Fungicides. Herbicides against weeds. Brevis for fruit thinning of apples and pears.

Deshen Gat - Low Chlorine - Liquid fertilizers for fertigation of intensive crops and Tel Aviv
orchards. Shafir - Liquid fertilizers for fertigation of greenhouses, soilless culture

and intensive vegetable crops. Liquid chelated microelements - FeroGat, chelated iron, etc.

Groundwork - Groundwork produces mycorrhizal inoculants for commercial agriculture. Natural mycorrhizal fungi improve soil nutrient uptake in 90% of all plant species. When applied to agriculture, mycorrhizal inoculants increase crop yields, especially under stress conditions. Mazor

Haifa Group - Fertilizers and chemicals. Multi-K - potassium nitrate products. Slow and controlled-release fertilizers. Soluble fertilizers for greenhouse-grown vegetables and flowers. Technical-grade phosphoric acid, potassium nitrate and phosphate salts. Haifa

I-Plant Nutrition - Software for fertilization management. Integrates crop data, fertilizers stock, lab test results, water and soil analysis, nutrients, pH and other elements. Recommends cost-effective fertilizer mix for crop. Fertigation calibration. Hod HaSharon

Luxembourg Chemicals and Agriculture - Insecticides for agriculture and pest control; herbicides for cotton, lawn and turf; fungicides for citrus, vineyards. Tel Aviv

V.G.I Agriculture Products Development - Organic fertilizers made of natural components. KF-20, KF-200 fertilizers suitable for organic farming. Replaces or reduces need for chemical fertilizers in conventional farming practices. Highly concentrated and applicable via regular irrigation systems. Mazor

Gan Shmuel Group - Citrus processing technology and packaging systems. Products include concentrated citrus juices, crystal clear concentrated juices, cloudy citrus concentrates, citrus bases, pineapple and tropical fruit blends, and tomato products.	Gan Shmuel
--	------------

Greeneye - Proprietary selective spraying (SPP) system turns every sprayer to a smart machine with seamless integration saving up to 90% of the farmers' chemical costs. Greeneye utilizes artificial intelligence to revolutionize the pest control process in agriculture,	Tel Aviv
--	----------

Solbar Industries - Soy protein concentrates for snacks, bakery products. Bontex, steam-textured soy protein for dehydrated instant meals. Soy isoflavones and saponins for cosmetics and dietary supplements.	Ashdod
--	--------

Agriculture Companies – <i>Biological control</i>	City
---	------

Agro-Shelef - Development and production of sustainable bio-pesticides, eco-friendly and non-toxic. TAMAR-TECH is based on fresh emulsion that preserves all the beneficial ingredients of the vegetable oils and at the same time prevents phyto-toxic incidents to the treated plants.	Ein Habsor
--	------------

Bio-Bee Biological Systems - Mass production and implementation of beneficial insects and mites for agriculture. Natural pollination of greenhouse vegetables using bumblebees <i>Bombus terrestris</i> . Predatory mite for the control of spider mites.	Sde-Eliyahu
---	-------------

BioDalia Microbiological Technologies - Biological insecticides for moth and mosquito control. <i>Bacillus thuringiensis</i> Bti. Yeast and malolactic bacteria for the wine industry. Biodegradation of surfactant (detergent) contaminants in industrial wastewater. Bioprocess scale-up and manufacturing.	Yokneam
---	---------

Biofeed -Baited flat panel suspended on trees to lure fruit flies. Mediterranean fruit fly, <i>Ceratitis Capitata</i> (Medfly), Olive fruit fly <i>Bactrocera Oleae</i> control without toxic insecticide residue. Tested hosts: apples, nectarine, sweet cherries, pears, olives etc.	Modiin
--	--------

Stockton Group - Eco-friendly crop protection products, herbicide, fungicide and insecticide solutions. Timorex Gold, a non-residue eco-friendly natural biofungicide for the control of Bl.	Petah Tikva
---	-------------

WeedOUT - Weed control by developing a novel biological herbicide to fight off resistant weeds. Development of proprietary weed pollen, applied during weed flowering period to prevent the generation of viable resistant weed seeds.	Nes Ziona
---	-----------

Agriculture Companies – Dairy industry	City
--	------

Afimilk - AfiFarm software for dairy farming and herd management. AfiAct heat detection. Afifeed for optimizing concentrated feed allocation. Controlled milking systems for sheep and goat dairy farmers.	Afikim
---	--------

Project Bar - Project Bar Group specializes in establishing projects in the cattle and dairy sectors. Projects vary from feed centers to project management in Israel, Vietnam, Romania, Thailand, Russia, China and more. Software for feed array management system and feed center for cowsheds.	Rivadim
---	---------

Remilk - Production of milk proteins in yeast. Dairy products are indistinguishable from old-fashioned dairy, sporting the same taste, texture, stretchiness, meltiness, and yumminess!	Rehovot
--	---------

SION -sraeli company for artificial insemination and breeding of dairy cows. The breeding program creates a highly productive Holstein cow, with excellent longevity, persistence and fertility.	Gedera
---	--------

Tara Dairy -Milk and dairy products including, a variety of cheeses and yogurt without preservatives.	Netivot
--	---------

Tessa Dairy Machinery -Tessa Dairy Machinery manufactures, installs and commission complete dairy processing lines. Milk processing equipment such as Batch Pasteurizer, Online Pasteurizer, Fermentation tanks, bottle filler.	Gan Yavne
---	-----------

Agriculture Companies – Equipment	City
-----------------------------------	------

AgroLogic - Climate controllers. Weighing systems for live poultry. Silo weighing system. Feedtronic feed weighing for restriction feeding and feed consumption. EC8 infra red egg counter.	Tel Aviv
---	----------

Arbel - Design and manufacture of food processing machines. Dairy products production lines for milk, cheese, yogurt, ice cream. Meat processing (sausage, pastrami, etc.) and packaging equipment. Fruit juice manufacturing equipment and packaging machines.	Gan Yavne
---	-----------

Crystal Vision - Design and manufacture of sorting machines for agricultural products and fruits such as dates, radishes and abalone to improve product quality. Custom design of equipment for plant irrigation, fish feeding, dairy farm operations.	Samar
--	-------

Degania Sprayers - Manufacturer of sprayers for orchards, row crops, cotton fields, citrus groves, flowers. Also for sanitation purposes and cowsheds. Two Row Sleeve boom sprayer for vineyards.	Degania
---	---------

Dolav Dvir-Lahav Plastic Products - Manufacture of large heavy-duty bins for agricultural uses, including fruit picking and transfer of fruits and produce from fields to packing house, mushroom culturing in bins, refrigerated storage, fish storage and transport etc.	Dvir
--	------

Hazan Sprayers - Manufacturer of a wide range of garden, urban, and field power pesticide sprayers from 80 to 1,200 Liters. Pumps and regulators for sprayers.	Akko
--	------

Margaliot Trade and Fumigation - Cultivation machinery for open field, greenhouses, and tunnels. Soil fumigation machine that uses fire and a rotocultivator to fumigate the soil. Soil fumigation with methyl bromide, metam sodium, tellon, etc.	Netanya
MetoMotion - GRoW (Greenhouse Robotic Worker) - a multipurpose robotic system for labor-intensive tasks in greenhouses. 3D vision system and machine vision algorithms to identify and locate the ripe fruits. Onboard boxing system.	Yokneam
Pladot - Manufacture of high-quality stainless steel equipment. Mini Dairy for pasteurized milk products: skim milk and soft and hard cheeses, yogurt, etc. Juice Lines: for pasteurizing natural or concentrate juices, wine, mineral water, etc.	Ein Harod Meuhad
Plasson - Manufacturer of plastic products for the water, gas and agricultural industries.	Maagan Michael
RMH Lachish Industries - Manufacturer of cattle feeding machinery for dairy farming and feedlot industry. RMH. mixer feeders for T.M.R. (Total Mixed Ration) feeding system. Trailers (tractor pulled mixers).	Sderot
SeeTree Systems - Aerial tracking of farming operations using drones. Digitization of farm allowing per tree management. Per tree automated fruit count. Compare the same tree over-time. Global coverage, millions of trees, one platform.	
Tama Plastic Industry - Crop packaging. Manufacture of round bale net wraps for hay, straw and silage. Degradable polypropylene for round bales. TamaShade nets for protection against solar radiation, frost, wind, hail, and birds. Benches and bench-tops for use in nurseries.	Mishmar Ha'Emek
Tefen Flow & Dosing Technologies - Design and manufacture of plastic products, including fittings and accessories for irrigation, nylon, PVC and polyethylene	Nahsholim

tubing, air blow guns and spray guns, flower pots, window boxes and planters for decoration and nurseries.

[Treetoscope](#) - Manufacturer of device that senses the internal water flow of a plant and directly measures its water consumption and real-time irrigation needs without extrapolations based on indirect sensing technologies. Beit Dagan

Agriculture Companies – *Flowers*

City

[April Flowers](#) - April Flowers specializes in growing, exporting and supplying bulk flowers all over the world. Flowers include an extensive range of gypsophila, eustoma, ruscus, aspidistra, pioni, cotton, greens and other floriculture products. Nizanei Oz

[Danziger "Dan" Flower Farm](#) - Flower grower and exporter. Main products: gypsophila, aster, solidago, limonium, chrysanthemum, new guinea impatiens, petunia, hypericum, liatris, curcuma and various types of greens. Specialty: asexual reproduction of plants. Mishmar Hashiva

[Pelemix](#) - Coir based substrate and potting-soil mixtures free of soil born pathogens, for plant nurseries, gardening and agriculture and hydroponics growers and nurseries. Blends of materials for special requirements, i.e. coir, peat, cocopeat, perlite, volcanic rock/ash and polystyrene granules. Moshav Katif

[TAP Agricultural Projects](#) - Turn-key projects in rose-plant, cut-flower growing and herbs and spices production. TAP method based on rockwool hydroponics culture. Growing many varieties of rose plants in isolated beds. Herbs and spices grown in soil less culture free of insects. Moshav Olesh

[Yagur Flower Nurseries](#) - One of the largest flower nurseries in Israel. Retail marketing of flowers, herbs, shrubs, gardening supplies.

Agriculture Companies – Greenhouses

City

[Agam Greenhouse Energy Systems](#) -Dehumidifier for cold-climate greenhouses. Environment-friendly, energy-saving elimination of humidity-related problems in heated greenhouses. Facilitates chemical free and organic agriculture. Ventilated Latent Heat Converter (VLHC).

Kiryat
Malachi

[Azrom Greenhouses](#) - Design and engineering of greenhouses for all crop requirements and climatic conditions. Modular structures suitable for all types of flexible and hard coverings.

Ein Tzurim

[Dagan Automation](#) - Greenhouse equipment such as cooling pad, thermal screen, fans, LHC dehumidifier, Trellising, Foggers, heating, irrigation system, humidity sensor.

Moshav
Haniel

[Ginegar Plastic Products](#) - Producer of cover films for agricultural greenhouses and for mulches and soil disinfection. Geomembranes for preventing seepage from reservoirs and ponds and for soil engineering. Films based on LDPE, HDPE, EVA, mLLDPE, LLDPE, PA.

Ginegar

[Polysack Plastic Industries](#) - Plastic covering for the protection of vegetables, nurseries, cut flowers and fruit trees.

Nir Yitzhak

[Palram](#) - Greenhouse Poly Panels

[Soli](#) - Greenhouse equipment and supplies for the horticultural industry. Pad and fan cooling systems. Thermal screens and shading systems. Ventilation systems to control humidity and temperature in greenhouses.

Kiryat
Malachi

Agriculture Companies – Irrigation

City

Agrosheriff - Drip irrigation equipment and accessories. Equipment and materials for hydroponics. Develop solutions for small, medium and large producers of agricultural products. Concept development, market analysis, feasibility study, technical design, turn-key projects. Ashkelon

Al-Magor Metal & Plastic Works - Hand tools for punching holes into plastic irrigation pipelines of all sizes for insertion of drippers and sprinklers. Punches for saddle connectors. Cutter for cutting holes in layflat hose. Tool for inserting connector in pipes. Holon

Baccara - Development and manufacture of solutions for water flow, irrigation automation, monitoring. Products include smartphone regulated irrigation controllers, solenoid valves, fertilizer solenoids, and diverse varieties of valves. Geva

Bermad - Water and flow management solutions for the irrigation, fire protection, waterworks, mining, and construction industries. Irrigation control valves. Water meters. Kibbutz Evron

Elgo - Irrigation sprinklers and oscillators, watering pistols, guns and wands, quick hose connectors, brass accessories. Hose reels and carts. Underground irrigation systems: Pop-up sprinklers, watering timers. Micro irrigation: micro sprinklers, drippers. Netanya

Galcon - Manufacturer of computerized irrigation controllers. Battery operated controllers for automatic operation of water systems, municipal and landscape irrigation systems, traffic islands, football stadiums, etc. Kfar Blum

Irrigationglobal israel - On-line drip and micro irrigation systems store. On-line professional consultation services and top brand irrigation equipment at direct sale. Products include irrigation emitters: Drippers, Integral drip lines, sprinklers. Screen and disc Filters, Water valves, water meters, fertilization pumps and tanks, pumps, irrigation control units. Ramat-Gan

KIM - Accurate drip irrigation, sprinklers and pivot design; hydraulic analysis for pipeline networks; 3D models and installation drawings. Detailed BOM (bill of material); and, high-end render visualization. Calculators for Drip Irrigation design.	Kibbutz Amir
--	--------------

Metzerplas - Irrigation systems. Subsurface drip irrigation products.	Metzer
---	--------

N-Drip - Gravity Micro Irrigation System utilizes existing infrastructure and gravitational force for energy. N-Drip's proprietary dripper does not need filters. Gravity Micro Irrigation is a better alternative to flood irrigation. Flood irrigation produces lower yields, causes water waste, overuses fertilizers, creates land waste, land depletion and water contamination. N-Drip's Gravity Micro Irrigation System provides precise irrigation, which maximizes yield while saving water and other resources.	
---	--

NaanDan Jain Irrigation -Agricultural sprinklers, sprinklers, lawn and garden sprinklers, round and flat-tube drip lines, sprayers and misters, rotors, drainage preventer and flow regulator. Comprehensive agro projects. Expertise in hydraulics, fluid analysis, water distribution.	Naan
--	------

Netafim - Irrigation equipment, sprinklers, drip systems.	Hatzerim
---	----------

Rivulis - is a global manufacturer and provider of complete micro and drip irrigation systems and solutions for seasonal horticulture, orchards, vineyards, row crops, SDI and greenhouse, soilless, hydroponic applications.	Kibbutz Gvat, Jezreel Valley,
---	----------------------------------

ROOTS - Root Zone Temperature Optimization. Root zone heating and cooling systems with irrigation and fertilization management. Pipes for heat/chill diffusion and fertigation (fertilization & irrigation) in the root zone. Irrigation By Condensation (IBC) from moisture in the air and soil.	Beit Halevy
---	-------------

Rain-Tal (Ein-Tal) Irrigation Systems - Micro Drip gravity based irrigation system that suits modern agrotechnology methods without requiring an expensive water pressure system. Vibro water Spreader water for low volume irrigation. Turbo Sprinkler. Super Disk water filters.	Barkai
--	--------

Sadot Irrigation Systems - Manufacturer of Shibolet irrigation and fertigation platforms for greenhouse and net-house applications. Design and maintenance of filtration and control systems for agricultural, landscape and turf and sports applications. Consultation services.	Rinnatya
---	----------

Skyx PASS - Agricultural-robotics technology company developing a modular swarm of autonomous drones for spraying.
--

Tavlit- Irrigation and Water Products - Manufacturer of micro sprinkler irrigation equipment with computerized support system for citrus, banana, orchards, avocado, kiwi, mango, vegetables, nurseries, hothouses, parks, private gardens, etc.	Yavne
--	-------

TreeTube - Urban Green Infrastructure. Limited sub-surface rooting spaces in the urban environment, hinders healthy and sustainable tree growth. Modular units designed and developed to facilitate the growth of trees in urban environments enable root growth under pavements and sidewalks. The system is manufactured from plastic and steel, easy to handle and simple to install. Eliminates pavement sinking and reduces sidewalk repair caused by root damage.	Ramat-Gan
---	-----------

Agriculture Companies – Monitoring

City

AgroScout - Autonomous scouting system for detection, identification, and monitoring of crop diseases throughout the entire field. The system inputs data from drones, cameras, and other sources to identify diseases.	Misgav
---	--------

Agrolan - Meteorological systems and measurement devices for agriculture.	Moshav Nov
---	------------

PhyTech - Phytomonitoring system: Parameters measured include: leaf temperature, sap flow, stem diameter, growth of fruit, photosynthesis, solar radiation, air temperature, diffusion resistance, soil temperature, and soil moisture.	Kibbutz Yad-Mordechai
---	--------------------------

Agriculture Companies – Seeds

City

[BetterSeeds](#) - Identifying game-changing crop traits. Designing superior traits. Applying and improving CRISPR and other methods for the development of proprietary better seeds.

[Genesis Seeds](#) - Organic vegetable, flower and culinary and medicinal herb seeds. Rehovot
Seed varieties include beet, broccoli, celery, cabbage, cucumber, eggplant, endive, fava beans, leek, okra, onion, parsley, pepper, pumpkin, radish, spinach, tomato, turnip, watermelon.

[Hazera Quality Seeds](#) - Hazera breeds, develops, produces, and markets seed of improved varieties in a wide range of vegetable crops using state of the art breeding methods, advanced technologies, and computational techniques. Brurim

[NewBreed](#) - Genomic information of seven tomato wild species are being used for breeding of varieties for the tomato market: greenhouse cultivation, open field production for the fresh market and the processing industry as well as pot tomatoes for decoration and for urban agriculture. Rehovot

[Nirit Seeds](#) - Producer of hybrid vegetable seeds for many varieties of tomato, watermelon, cucumber, pepper, melon, eggplant, cabbage. Moshav Hadar Am

[Origene Seeds](#) - Seed company active in research, plant breeding, seed production and processing, sales and marketing of hybrid vegetable varieties. Seedless and Seeded watermelons. Cantaloupes - producing high yield, excellent shelf – life, high Brix and disease tolerance; from different types: Galia, Annanas, Western Shipper, Honeydew, Yellow Canary and Charentais. Cucumbers - for nurseries grown in summer and winter: Bet Alfa, Dutch, Slicer and Baby types. Squash and Pumpkins. Rootstocks – varieties adapted for melon and watermelon, enhance tolerance for soil diseases. Rehovot

[Zeraim Gedera](#) - Fruit, vegetable and field crop seeds. Tomato, squash, melon, watermelon, cucumber, pepper seeds. Gedera

[Shneor Seed Co.](#) Seed company Jerusalem

Agriculture Companies – <i>International consultancy</i>		City
AgriSupportOnline - International consultancy for expert agronomic support, agricultural assessment, project planning and management. Agricultural training programs and seminars. Livestock assistance. Equipment, systems procurement. Produce packing and market distribution.		Almagor
Agriquality - AgriQuality is a global consultancy and agriculture projects management firm. Sample projects: Agronomy and agro-technical consultation - Upgrading Mango plantation in southern India. Building a fresh produce export company. Fund raising and strategic consulting for Agro start-ups. Organizing professional tours, demonstrations and delegation visits.		Omer
Argos (Agri Projects) - Design and execution of turnkey projects in agriculture and water management. Cultivation of wide-ranging agricultural crops in different climatic conditions in greenhouses, open fields, plantations, orchards etc. Implementation of agro-technologies.		Tel Aviv
Cropaia - Agronomy consulting services to governments, organizations, as well as to individual growers. Online courses and Ag training programs. Precision agriculture, fertilization management, irrigation and water treatment technology.		Hod Hasharon
Etza Agriculture - Consulting company for vegetable growers. Services are tailored to support small operations of several hectares, as well as large farms of hundreds of hectares, open fields and greenhouses.		Orot

Agriculture Companies – <i>Veterinary</i>		City
Allflex Livestock Intelligence - Allflex livestock Intelligence visual identification solutions include a variety of tags, with colors and print options for identifying different species of farm, zoo, and wildlife animals. Milking automation technologies.		Netanya

Ambar Feed Mills - Feed for poultry, turkeys, ruminants, fish, rabbits and pigeons. Protein concentrates for international markets. Vitamin and trace mineral premixes. Biosecurity feed mill for breeder feeds.	Haifa
BeeFree Agro - JOE a drone based system that moves up to 1000 heads of cattle over vast expanses of land without human intervention. Named after favorite herding dog, JOE displays all the characteristics of a good herding pal. Joe identifies terrain obstacles and cow location.	Rosh Pina
Biogal-Galed Labs - Immunocomb antibody test kit for determining the presence of a variety of diseases in small animals. Kits to determine serum, blood, or egg yolk antibody titers against Bursal Disease, Newcastle disease, Infectious Bronchitis Virus.	Galed
Biopet - pet food	Maabarot
Biovac-Vireo Biological laboratories - Manufacturing and development of live and inactivated vaccines for poultry and cattle. Vaccines against Newcastle disease, avian encephalomyelitis, Infectious Bursal disease, bovine rotavirus. Parasiticides.	Or Akiva
MSD Animal Health - Manufacturer and marketer of a broad range of veterinary medicines and services. Pharmaceuticals. Vaccines. Insecticides.	Hod Hasharon
Phibro Animal Health - Veterinary pharmaceuticals, vitamin concentrates. Large-scale synthesis of complex organic molecules. Technologies include Cyanation, Hydrogenation, Methylation (dimethyl sulphate), Pyrimidine Chemistry, Carbonylation, Darzen, and Sandmeyer processes.	Tel Aviv
Plasson Poultry Systems - Poultry farm equipment. Nipple drinker and Bell drinker systems made of high impact plastic for broilers, breeders, turkey poults, layers, ducks, geese and quails. Pan feeding systems. Heating cooling and ventilation systems and climate controllers.	Maagan Michael

[Solano Pet Care](#) - Development and manufacture of innovative parasite pesticide solutions for pets. Soltif for flea and tick control. Tick collar for dogs. Ecolife Zoro Spray protects horses from flies and bugs for long term. Beit Shean

[Soos Technology](#) - SOOS developed an incubation system that affects the sex development process in poultry embryos and turns genetic males into functional female chicks. The application of this method in commercial hatcheries will prevent culling of male chicks.
