Stuck in a Broken Tutorial credits

- Direct contributors
 - Bartosz Sieprawski (AKA DarkStoorM) ([Twitter](#)): development
 - Kwiki Joe's (AKA KwikiJoe) ([site](#)): artwork and art direction
 - Kevin (aka kevinrpb) ([site](#)): development (unfun tasks only) 🤪
- Asset packs
 - I plan to use a lot of asset packs for the game. I don't plan to keep this particular document up-to-date with the links/names since they're already in the in-game credits (and *that* has to remain up-to-date). If you're ever curious about where I got an asset pack from or who made it, feel free to ask.
 - Note: eventually, there'll be a demo for the game and you can find this out for yourself for free.
