Ms. Harriette Crawford is an Administrative Assistant in the Department of Urban Studies and Planning. Art became relevant for her in high school when she had to do a project for class. She drew a hibiscus flower design on cloth and used the batik method to add color to it. The outcome of that project sparked her interest. She creates for fun and to make gifts to friends/family. Her biggest inspiration is nature's beauty, especially beach views and foliage. It's a hobby that she is learning to perfect through classes. Enjoy!

In this semester of remote learning, Professor Semyon graciously prerecorded lecture videos for 18.02. Unfortunately, he did not have a clapperboard to let him know when to cut the hour-long videos into shorter clips. So, he came up with an ingenious solution: to dance and let his large motions show where to clip the videos.

If anyone has questions, wants to reach out, or anything of the sort they would like advice on they can submit them to stemstriving@gmail.com

Blog: <https://reborn2beauty.wordpress.com/> (Some of my YouTube Videos are linked on there)

The song is in Spanish; it's a sort of love song in which the artist was telling their loved ones to sing instead of cry in order to lighten up their heart. So moving off campus, this is the song that came to mind.

Words from Katherine: "Hi! I'm Katherine, a first year at MIT studying course 6 and 15. I started composing this piece, 'spring blossoms and autumn drizzles' during quarantine and finished this fall, so I thought it was an apt name. As you can probably tell, it was inspired by the duality of nature in that it can be both tranquil and tumultuous. If anyone wants to chat more about music or life, hit me up on Facebook or email :) Hope everyone enjoys the performance!"
