Privacy Policy for Notepad

Last updated: November 8, 2026

Welcome to Notepad. We respect your privacy and are committed to protecting it.

1. Information Collection and Use
- Zero Data Collection: Notepad does NOT collect, store, transmit, or share any personal information, location data, or device identifiers.
- 100% Offline Storage: All notes, titles, and timestamps created in the app remain strictly on your local device storage (SQLite database).
- No External Servers: We do not maintain external servers or cloud databases. Your notes never leave your phone.

2. Permissions
Notepad requires NO sensitive Android permissions:
- No internet access permission
- No location or GPS access
- No camera or microphone access
- No contacts or accounts access
- No external media or storage access

3. Third-Party Services
Notepad does not integrate any third-party SDKs, analytics tools, or advertising networks (no ads, no tracking).

4. Children’s Privacy
Our app does not collect personal information from anyone, making it safe for users of all ages, including children.

5. Data Security & Retention
Your data is stored locally. You can delete individual notes anytime from the app. Uninstalling the app or clearing app data will erase all stored notes from your device.
