

## Topic 2: Characterization of the curriculum

Design an outline of the tasks sequence for the virtual exchange for the topic:

**Characterization of the curriculum.** The figure below is for reference.

| MAJOR TASK TYPES                              |                                                                                                                                                       |
|-----------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Information exchange tasks</b>             | Learners provide their partners with information about their personal biographies, such as home life, hobbies, education system, ethnographic studies |
| <b>Comparison and analysis tasks</b>          | Learners exchange information and they critically compare cultural practices from both cultures (questionnaires, books, films, etc)                   |
| <b>Product creation - Collaborative tasks</b> | Learners exchange and compare information and they work together to create a joint product (essay, tasks, website, report)                            |
