

How to stop Meetup Email Notifications?

Please email meetup@d57tm.org for questions.

Meetup notifications can be managed by editing email settings. You can choose which emails you receive from Meetup and from each of your groups.

STEP 1: Click on your circular **Profile** button in the upper right-hand corner Select **Settings**.

STEP 2: Select **Email Updates**.

The screenshot shows a web browser at the URL `meetup.com/account/comm/`. The Meetup logo is in the top left. The top navigation bar includes links for Pro Dashboard, Connections, Messages, and Notifications, along with a user profile icon labeled 'S'. A left sidebar lists various settings categories, with 'Email Updates' highlighted. The main content area is titled 'Email updates' and contains a paragraph explaining that users can select what email updates they receive about their activity, events, and groups, with a link to 'Learn more'. Below this, the 'Updates from Meetup' section lists several notification types, each with a toggle switch set to 'on' (indicated by a checkmark in a circle):

- Messages**: Email me when someone sends me a message
- Replies to my comments**
- Suggested events**: Weekly highlights based on your groups and interests
- New Meetup Groups**: Tell me about new Meetup Groups that match my interests
- Updates from Meetup HQ**: Tell me about new features and important Meetup news
- Meetup HQ Surveys**: Ask me about things that could make Meetup better

STEP 3: To disable most emails, scroll down to the bottom of the page and select **Turn Off**.

The screenshot shows the Meetup website's account settings page. The browser address bar displays `meetup.com/account/comm/`. The Meetup logo is in the top left. The top navigation bar includes links for Pro Dashboard, Connections, Messages, and Notifications, along with a user profile icon labeled 'S'. A left sidebar lists various settings categories, with 'Email Updates' highlighted. The main content area is divided into sections: 'Updates from Meetup Pro Networks' with a toggle switch turned on, 'Connections' with a toggle switch turned on, and 'Updates about your groups'. The 'Updates about your groups' section includes a search bar and a list of three groups: 'BrainStation San Francisco | Tech Skills and Careers', 'Leadership 101 - an Advanced Toastmasters Club', and 'Women in Data Science Meetup Group', each with an 'Edit' link. At the bottom, the 'Turn off all email updates' section explains that certain communications will still be received and provides a 'Turn off' button.
