Operations Meeting September 4, 2018

Attendees: Mat Selmececi, Derek Weitzel, Marian Zvada, Tim Cartwright, Jeff Dost, Suchandra Thapa

Fires

Nebraska (Derek, Marian)

NEWS: Marian's OSG Factory funding officially ended in August

GRACC

- Bad CMS records deleted and updated APEL accounting for May, Jun, July; still to be understood drop down of number of jobs after update (Freshdesk #7517)
- New frontend not fully commissioned, still testing, we should switch next day(s)

StashCache

Stats: 104TB Read.

- Still waiting for GeoIP fixed for I2 nodes, DaveD has objections to start with Chicago and Kansas's cache as suggested during StashCache meeting
- Discussed work in progress on Kubernetes stuff for Caches
- Fix for stashcp to use wlcg-wpad geo ip service, waiting to deploy (other module issues today for user support)

-

OASIS

- Distribute CMVFS repo sw.lsst.eu across OSG (Freshdesk #7509)
- Adding new DUNE repo URL (Freshdesk #7533)
- LIGO issues, change requested to CVMFS_MAX_RETRIES and _LOW_SPEED_LIMIT (Freshdesk #7557)

OSG Web (repo, collector, ...)

- Continuing to verify missing CE's not reporting to collector. Have "eliminated" many CE's already, down to last mile.
- Repo needs to move, but no deadline.
- Got the OK for the fix of the display.opensciencegrid.org maps. Just need to get the credit card.

Brian Lin

Topology

- (Mat) Making changes to downtime registration form based on user tested feedback
 - Instructions added to docs for admins to provide GitHub IDs in contact database for direct downtime updates
 - Site admin instructions document:

Glidein Factory

- New CMS production factory at CERN
 - <http://vocms0206.cern.ch/factory/monitor/>
 - Will eventually replace old production factory vocms0805.cern.ch which we are leaving up for a few weeks while ensuring vocms0206 is working correctly as it ramps up in scale
