

Cristian Manuel Veliz

Full-Stack Developer | Computer Science Teacher

Wrocław, Poland | cristianmanuelveliz@gmail.com | linktr.ee/manuveliz

*Experienced in implementing projects using a wide range of technologies (more than 20 projects). I have trained over 100 students, from beginner to advanced levels (kids, adults, one-one and groups), both in **English and Spanish**, through remote and in-person sessions.*

I aim to contribute my programming expertise and passion for teaching to an innovative company where I can continue to grow professionally. Additionally, I create educational content on programming and IT, reaching a global audience through bilingual platforms and social media.

EXPERIENCE

British International School of Wrocław

Teaching Responsibilities (Computer Science - IGCSE & AS Level):

Wrocław, Poland

November 2025 to Present

- Plan and deliver engaging and age-appropriate lessons.
- Develop students' digital literacy, maths, programming skills, and critical thinking through a range of creative and challenging projects.
- Assess, record, and report on students' progress, providing timely and constructive feedback to students and parents.
- Participate in subject planning (Cambridge Curriculum) and professional development initiatives.
- Contribute to the wider school life, including assemblies, extracurricular activities, and school events.
- *Head of the Secondary School AI & Python Club

IT Support Responsibilities::

- Serve as the first point of contact for day-to-day IT support issues for staff and students, including hardware, software, and connectivity.
- Manage and maintain school IT infrastructure, including laptops, desktops, printers, Wi-Fi networks, projectors, and classroom technology.
-
- Assist in the development and maintenance of the school's digital learning tools and platforms (e.g., Google Workspace).

Foundation for the Development of Entrepreneurship "Twój StartUp"

Wrocław, Poland
Sept 2024 to July 2025

Full Stack Developer (Freelancer - Remote):

- Developed business websites, e-commerce platforms, and full web applications. Implemented APIs, managed domains, and applied security and cybersecurity measures across applications. Worked on database connections and optimized queries to improve system performance for colleagues and businesses in B2B projects. Currently working with 3 clients in Europe and 2 in Argentina, helping them improve their systems and processes. Additionally, collaborate in the creation and management of social media, analyzing viewership statistics and optimizing content strategies.

IT Teacher (Freelancer - Remote):

- I teach the fundamentals of programming to students of various levels, offering both personalized and group classes. I assist my students with their personal projects, guiding them through different technologies and programming languages. I provide support in problem-solving, solution development, and improving practical skills. My classes cover a wide range of languages and technologies, tailored to the individual needs of each student. Currently, I work with students from Germany, several cities in Poland, Argentina, Australia, and Colombia.

Spanish Tutor (Freelancer - Remote and On-site):

- Teach Spanish to children using playful and interactive methods, combining programming with Scratch, and deliver lessons in both Spanish and English.

C&P Soft Institute

Tucumán, Argentina
March 2022 -Sept 2024

Professor-Technical Degree in Software Development:

- Taught over 70 students in both in-person and online classes, covering courses such as Systems Analysis and Design, Business Development, Database Fundamentals, Data Structures and Algorithms, Business Information Systems, and Business Development. Delivered content on topics like Systems Analysis, UML, SQL, Python, programming logic, database fundamentals, and business administration concepts.

Teacher - High School:

- Computer Sciences Fundamentals (Hardware, Software, Data and Information, Databases, security, Operating Systems, History of CS) Technology , ICT I & ICT II (Microsoft Excel, Power Point, Word, Canva, Windows, Linux, Filmora). Experience in delivering in-person lessons to groups of over 50 students. Focused on lesson planning, classroom management, and fostering an engaging and effective learning environment.
