

Date & Time: 10/23/21 2:00-4:00

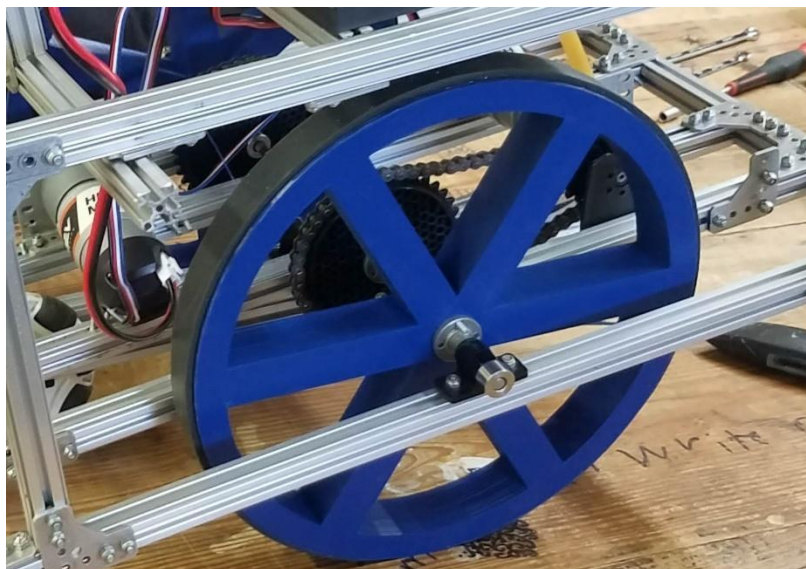

Location: Millard's Workshop

Coaches present: Millard Gold, Tony Congdon, and Jessica Frank

Members in Attendance: Dillon, Evan, Preston, Isabel, and Lauren

Task:	Reflections:
Shrink GoBuilda Chassis	Dillon and Isabel removed much of the center structure for the backup robot, making it easily drive through the gates. Everything went well and it was an overall success.
Replace Wheel Gears with Chains	Preston and Evan switched the gears on the big wheels which were constantly slipping with sprockets and chains. This completely fixed the slipping, so another overall success.
Team Freight Object	Jessica and Lauren designed a Team Object out of cardboard that will fit easily and allow another team object on top. While the object itself was flimsy, it was supposed to be a concept piece so it did its job well.
