- [See map](#)

Stage 4: 10 to 20 cm

- Priority 1 work in progress, could be multiple days
- Recommend informing University of reduced access to the University
- Includes Priority 1 entrances and sidewalks, stairs to be cleared halfway, to return after snowfall has ceased to complete
- Priorities 2 through 6 finished in 48 to 72 hours after snowfall has ceased
- [See map](#)

Stage 5: 20+ cm

- Priority 1 work in progress, will be multiple days
- Recommended limited access to University in consultation with EOC
- Will provide pathway on Priority 1 entrances and sidewalks; stairs to be cleared to allow access, to return after snow has stopped falling
- Priorities 2 through 6 finished in 72 hours after snowfall has ceased
- [See map](#)

Stage 6: Freezing rain

- Salting is in progress
- Will move through priorities throughout the day
- Could recommend reducing access to University in consultation with EOC

Note:

- Continuous snowfall through the day will have snow routes begin back at Priority 1's on the next business day
- Extreme cold and /or extreme weather conditions will delay response times
- Reduced staff or equipment issues will also delay response times
