Preamble:

The Ontario Collegiate Equestrian Association (OCEA) was officially founded in 2007 by a group of dedicated and hardworking university students. Formerly known as the OUEA, the goal of the organization is to offer students a way to continue riding and competing without the same financial and time commitment traditionally associated with the equestrian sport.

The OCEA offers hunter equitation classes to riders ranging in ability. Riders compete on donated horses that they have not previously ridden. The OCEA started with only seven member universities from south-central Ontario (Brock, McMaster, Guelph, Waterloo, Western, Laurier and Trent) and over the years has grown to include colleges and universities from across Ontario and Quebec.

The OCEA is predicated on the values of good sportsmanship and horsemanship. It is expected that all members conduct themselves with integrity and act within the best interest of equine welfare both inside and outside of the competition ring. The OCEA remains a student and alumni-run organization that looks to our provincial (Ontario Equestrian) and National (Equestrian Canada) sport organizing bodies policies for guidance.

- V-3.6 If a horse-rider combination is eliminated during competition due to refusals, a warm-up rider must re-school the horse before the next rider mounts. They must jump the problem jump at least once with no issues before the horse can be used again. Issues will be determined by the judge, steward, or horse owner.

 - V-3.9.1 Fill is swapped or removed in a way that does not change the fence
 - V-3.9.2 Fill is swapped for similar looking material due to damage
 - V-3.9.3 A fence is lowered if the posted course is identical.
 - V-3.9.4 An oxer becomes a vertical
 - V-3.9.5 A vertical or oxer becomes a cross-rail

 - V-3.18.5 It is always recommended to plan for horses to compete in less than their maximum number of trips so that they can be used as a back-up or re-ride trip when needed.
 - V-3.18.6 Horses competing in over fences must be used in minimum 2 over fences rounds in the same division for judging comparability purposes.
 - V-3.18.7 Horses competing in under-saddle should be used in minimum 2 flat classes, where possible, in the same division for judging comparability purposes.
- V-3.19 Back-up horses should be provided for each division to prepare for the possibility of a horse needing to be pulled.

 - V-3.19.3 Back-up horses are preferably horses that are not competing and can be used as a substitute for a pulled horse but may also be multiple horses that are not competing to their maximum capacity of trips that be used as a partial substitute for a pulled horse (as long as they are not used for more than their max trips).
 - V-3.19.4 The number of back-up horses is approved by the Horse Welfare Coordinator before final entry numbers are confirmed to ensure there are enough horses to the run the show within horse welfare guidelines.
- V-3.20 If horse welfare cannot be maintained with the original format of the show due to extenuating circumstances (such as running out of back-up horses) a modified version of the show format will be run.
- V-3.20.1 The maximum number of trips stated in V-3.18 or the equivalent given by the horse donor (whichever is less) are never to be exceeded. Horse welfare is never to be neglected in order to run the show.

VII-2.11.1 Returning open riders who do not have applicable show records and who have shown in that division for more than two (2) years must submit a video to their zone representative and zone membership coordinator before the start of season. This video must be clear, of a catch ride at division height, or a ride on a familiar horse at 6" above the division height on a course that satisfies the rulebook requirements.

VII-2.12 If a rider no longer qualifies for the division they showed in the last year due to not keeping their placings current over the summer through showing or did not place in an over fences class on the OCEA circuit in the previous year, the rider may appeal down to the next division lower in height.

- VII-2.13 If a rider no longer qualifies for the division they showed in the last year due to acquiring new placings over the summer through showing they must apply for the division for which they currently qualify.
- VII-2.14 Riders may appeal up or down a division.
- VII-2.15 If a rider or their School Representatives feel that their riding ability is not suited for the division they qualify for, they may state this on the division appeal form

 - VII-2.15.3 Appeals are subject to the members' first competition. It is their team's responsibility to film their over fences round for re-submission to the executive. If a video cannot be obtained, an additional appeal can be made to the committee. Their decision is final.
 - VII-2.15.4 Riders who have had their initial appeal approved that have had an appeal made in their favour are considered to be on probation until after the first OCEA show of the season to ensure suitability.
 - VII-2.15.5 If, after the first show, the OCEA Executive deem the rider unsuitable for that division, the rider's appeal will be thrown out, and they will remain in the division in which they qualify for.
 - VII-2.15.6 The OCEA Executive reserves the right to question a rider's eligibility and require moving to a new division.
 - VII-2.15.7 Refer to Appeals form for further information
- VII-2.16 Riders may not qualify for more than one division.
