I am filing a report against the Police of Riverside County California, Palm Desert California, and Gilbert Arizona for their negligence in the M. Tiffany case. They have been ignoring our pleas to investigate the abuse of M. Tiffany further and to get her a rape analysis kit for the suspected sexual abuse she is facing. They have been lying to us on social media and released news to NBC before the case was completed. They claimed that M. had an upset stomach and wasn't eating but M. had told Angelica that she was hungry and asked for food, and her father said no you can't eat. They also have been hanging up on callers, ignoring emails, and invalidating our claims of abuse. Angelica Mendez reported the abuse at a Palm Desert Costco and the police have now been gangstalking and threatening her for doing so. We know that Joel Tiffany worked as a 911 operator for AZ police and that he has connections with them so we find it very suspicious that they are taking more time to monitor and threaten Angelica instead of helping M. or investigating the abuse that she is facing.

Hello!

On 8/20/21, a woman made a Facebook post showing multiple videos of a young girl being abused by her adopted family at a Palm Desert, CA Costco foodcourt. The girl was not eating and didn't even have a drink, even though the rest of the family and children were all eating and drinking. As the woman then asked her some questions and the girl, revealed to be M. Tiffany told her, "they are raping me". The woman then called 911 and started recording while she waited for the police to arrive. When the Riverside County police arrived, they assessed the situation by talking to the family and not talking to M. , not documenting any signs of abuse, and let them go. M. Tiffany said she was being raped, we worry that child sex trafficking is happening to her.

When Riverside county sheriff department did their investigation the other day and found no issue with the incident at Costco, I believe that they made a serious mistake. A mistake that could put this little girl in even more danger, and we are worried that she will be killed. Ultimately, the police of Riverside have done nothing, we need the child to be taken to the hospital and to be given a rape kit. Its also important that this child speaks with a person or organization that was created to help children who are suffering from sexual abuse. She needs help from someone she can trust, we urge the Police to bring someone from a child rape organization to her so that she can speak with someone who is educated enough to recognize the signs of child sexual abuse.

According to Angelica, this child said that she was being raped. They weren't feeding her. She looked very scared and traumatized. The family looked suspicious. Now on social media, the family's abuse is coming to light. Coworkers of her adopted father, Joel Tiffany have made claims that he said he gave M. an enema, and that M. cries because she is treated differently. He's also been known to verbally abuse M. and is known as a controlling man. A schoolmate of his other daughter, M2 had said that the Tiffany family locked M2 in a closet and forced her to play instruments. It is confirmed that M2 Tiffany plays the harp. The whole situation is not okay, we need you to look into this further as soon as possible. This poor child is in danger. M. Tiffany could be a victim of child sex trafficking and is a definite victim of child abuse. We need you to work with the proper parties to get this girl help. She is clearly being abused and you guys cannot prove that she isn't until you do a rape kit and take her away from this family so that she can tell the truth in a safe place.

We called Riverside CPS, they said that they are doing a cross investigation with Arizona CPS and the investigation was ongoing as of 8/24/21. So why did the Police speak with NBC news

on 8/23/21 and tell us that nothing is wrong? We need something to be done now. This is suspicious.

The woman who posted the incident had her Facebook deleted, here is the news article about her post

https://nbcpalmsprings.com/2021/08/23/sheriffs-respond-to-online-video-of-alleged-child-abuse-say-its-not-credible/?fbclid=IwAR24mD23i-nciPXvdSnNz_cjKQPmHspEB9Wx1qETTI2tMVxz0CWLgqhl4Ss

We found the man, Joel Tiffany of Gilbert, AZ who works at Risas Dental and Braces. His daughter M. Tiffany is the one in the video. His wife is Becky Barlow Tiffany. We are very worried about child sex trafficking. We are worried about the sexual abuse of M. by her family. We are also worried about the abuse of M2 and possibly other siblings.

Please get M. to safety, we are all very worried. It is clear that she isn't safe. It is clear that she is suffering from abuse by these people. Especially from her body language and facial expressions in the videos and given the details provided by the woman who reported this incident and the coworkers of Dr. Tiffany. She needs a rape kit done and the whole household needs a wellness check. This could be child sexual trafficking. We need to see some action now.

Hello,

We need your help! I need you guys to investigate this case brought to our attention by a woman on Facebook further. A couple days ago, the woman made a post showing multiple videos of a young girl being abused by her adopted family. The girl was not eating and didn't even have a drink, even though the rest of the family and children were all eating and drinking. The woman decided to start filming after she asked the girl some questions and the girl, M. Tiffany told her "they are raping me". We are very concerned.

The woman called 911 and the police came. They did a simple investigation by talking to Joel Tiffany and his wife, Becky Barlow Tiffany. They did not talk to M. , or take any photos of her bruises or document any of the abuse. They just let the family go. We are very suspicious.

When Riverside police department did their investigation the other day and found no issue with the incident at Costco, I believe that they made a serious mistake. A mistake that could put this little girl in even more danger, and we are worried that she will be killed. Ultimately, the police of Riverside have done nothing, they keep hanging up on people, and ignoring emails and calls. Palm desert, CA police have just been adding names to a list and not helping at all.

This child said that she was being raped. They weren't feeding her. She looked very scared and traumatized. The family looked suspicious, and now lots of people are coming out about the abuse they saw her face while working with Joel Tiffany, and Becky Barlow Tiffany. The whole situation is not okay, we need you to look into this further as soon as possible. This poor child is in danger.

We called Riverside CPS, they said that they are doing a cross investigation with Arizona CPS and the investigation was ongoing so why did the Police speak with NBC news and tell us that nothing is wrong?

We found the man, he is Joel Tiffany of Gilbert, AZ who works at Risas Dental and Braces. His daughter M. Tiffany is the one in the video. Old coworkers of Joel Tiffany have stated that they have seen him make racist comments toward his daughter, verbally abuse her, and one coworker was told by him that he "gave his daughter an enema" and that M. hysterically cried because she is treated differently than the other children. If you follow @thatsobold on Instagram, they have been updating us as more instances of abuse are coming out. We are very concerned after finding out this news. We are very worried about child sex trafficking.

The police and CPS have been negligent in this case. The woman who posted the original video is being gangstalked by the police. People are banging on her doors and windows late at night, someone broke her window and she is being threatened. Why are the police so scared of this one woman? Why are they more worried about her than M. Tiffany, the girl who is being abused? We need help getting this story to come to light. There is something serious going on.

Thank you,
