Movie Notes for:

“The Amazing Colossal Man”

Today we're watching "The Amazing Colossal Man"
2:45AM 2 hours and 15 minutes before zero hour.
Why not just say it’s 5am?
Exploding a Plutonium bomb and exposing soldiers -- because...
Produced and Directed by Bert I Gordon
30 seconds to time zero.
Countdown...
Zero and nothing...
The bomb didn't go.
Beep beep beep...
They must wait until the bomb goes.
Smoking is permissible.
A plane crash? Here?
He can see through those dark goggles?
Ground control to Major Tom...
You can never tell with those planes.
We are helpless to save that pilot.
Beep beep beep.
Kaboom!
The Colonel is in surgery. It looks bad.
We need another unit of blood. We don't care what type.
What happened to the pilot?
The plane was all in his imagination.
Reporter is a dope. Say terrible things.
Was he in pain?
They got it all on camera.
3rd degree burns over 100% body, and he survives.
They met because she is a terrible driver.
He'll die of shock or infection...
Now we just have to wait.
INto the ICU for you.
He is still alive, but he spoke of you.
They're worried about infection, but nobody wears masks around him.
Into an oxygen tent.
Check and call the doctor!
They are cutting off the bandage because???
He is all fixed...
He is not burned, and he'll be fine.

The accident was unfortunate.
The man survived the blast by chance.
The plutonium fixed him?
Think of the medical applications!
Don't think of how crappy the bomb would be if the people healed quickly.
Let's watch some A Bomb stock footage
Then recap the beginning of the movie.
She sleeps in full makeup.
The knocker is persistent.
You cannot visit Glen because of security.
That was kind?
We're waking you up in the middle of the night to tell you that you cannot visit the hostpital.
She sneaks in anyway, but he is gone.
Colonel Manning was never here.
They've never heard of Colonel Manning.
She grabs the chart, and drives off to the Nevada Institute...
No patients here since the war ended.
The sargeant will see her.
The lax security is frightening.
I will sneak into this room.
We won't close the door behind us.
We are leaving Glen's room.
He's a giant, and she was never told.
The body is like a factory...
This is how cells work.
27:30(ish)
This cell repair function is what is causing him to grow huge.
If we cannot stop it, Glen will grow until he dies.
Flashback to when they went to a picnic and he volunteered for Korea.
War footage and actor footage.
Remember that time we smoked and killed those Koreans?
Then he came back a hero...
Then that blast...
Now he's awake. Look at this small furniture.
This small phone works?
I have no hair! Yikes!!!
We want you to see him.
Glen it is me, a person in another movie.
What did I do to deserve this?
I have the delivery food.
What is the secret?
Like the military would tell.
Now the news, what happened to Glen?
Here is a bunny rabbit...

Let's give him double the amount.
We should confine Glen...
Remember that picnic? Neither do I.
Everything reminds me of the accident
My cellular regeneration doesn't include hair.
If they find and stop your growth.
I don't want to grow anymore.
He is all alone except for me.
I poison bunnies for a living, but I think this is wrong.
I want to show you this dead bunny I have been working on.
We're making smaller and smaller props!
I brought you a turkey for dinner.
They call this living, let me drink this barrel of water.
I can grow to 100ft tall, and my clothes will still fit.
See the amazing colossal man...
Now he is going mad.
Glen's heart is shrinking.
The heart is one cell?
If he keeps growing, his heart won't be able to keep up.
His mind will go, then his heart will.
I'm doing science!
At least, that is what my clipboard says.
The animals just aren't cooperating.
We paid for the camel and elephant, so we're going to use them.
Coughing Glen wakes up Carol.
How tall will I get? Could I grow a mile high?
I cannot leave you!
Even if I stop growing, I am still huge!
Manning has disappeared.
I have the answer, it is in the marrow!
55:00
Look at these small giant animals.
We'll use helicopters to find him.
He, like many Kaiju, can hide easily.
We are going towards the dam.
We got William Xray, you are Charlie Dog.
He is like 55 feet tall, but no one sees him.
I want to hear any giant stories!
If he is dangerous, we'll take him down.
Just a giant sitting on the road.
He won't drink again, until he finds the giant is real.
We should have tied him down.
We've got the medication.
Don't you have any heart?

I am not here for helping...
He weighs 9 tons and is 60 feet tall.
Here is what we're going to do.
You are here to find him.
Here is the path of evidence, we think he is down here.
We are terrible at this search.
The giant might be dangerous.
It is just a shame that Nevada is so forested...
He is heading to Vegas!
We are 14 minutes out.
I just wanted his hat!
Land your plane???
Stand there and look up.
Peeping Tom giant...
Jinkies the fuzz!
That news guy is terrible.
Hey a crown! It's too big.
High heels! Me likey!
Are they getting closer to Las Vegas or farther?
Eat palm tree copper!
The cops shot at him! Now he is rampaging.
Let's pretend this screen is a window!
He is now headed towards the dam.
He doesn't like the noises.
We walk from here!
Remember us? Carol! We wanted here to leave, but she wouldn't.
Right in the bone. Did it work?
The needle went into the doctor.
He grabs Carol and splits.
You cannot shoot because he has a hostage.
If I put her down, they'll shoot me!
Bad falling effect.
Into the dam.
The end!?!
