

Hi Kenneth,

I've heard from my friend, Katy, about your fitness lessons. They particularly raved about your personalized approach and the dynamic group exercises, which piqued my interest.

I admire your work and believe more people need to find your program.

I want to help enhance your online presence, reaching more people seeking a healthier lifestyle through an email marketing approach and a strong content strategy, including SEO (Search Engine Optimization).

Your expertise, coupled with my skills, could be a great match

Instead of talking about payment, a testimonial from you will be appreciated.

I'm looking forward to hearing from you
