EDUCATIONAL PLAN Class B

(normal progression)

Registration Online/driving school	There is unfortunately a bit of administrative work to be done at the time of registration (snore;). So, to speed up the registration process, you can register easily, quickly and comfortably online from home or on the go (wroom....). If you prefer to register with us in the driving school, our office is open for you Mon-Fri 10.00-18.00 :)
Doctor's report (Arztgutachten) Optional/driving school	The medical certificate must be submitted in the original to the Verkehrsamt as soon as possible (after the registration) where it will be registered. Until the doctor's report is registered, you cannot take any tests. You need to find a doctor who is authorized for the purpose of the driving license, and it can't be your general practitioner! You can also get the doctor's report from our visiting doctor. Find and book an appointment now!
Theoretical course Driving school	For the driver's license you need to complete 10 modules of basic knowledge (GW 1-10) and 6 B-specific modules (B 1-6). The whole course lasts 8 days with us, and you can find planned class times and required modules under Termine (GW 1-10 (ENG) and B 1-6 (ENG)). Have a look now :) Oh, and in our online shop you can order the online trainer, so that you arrive well prepared for the course :)
Theoretical test Driving school	Whee, theoretical test ... :) Now all the necessary theoretical modules and the doctor's report have been completed, you have tried the test simulation for the theoretical test in the driving school (... right?) and the theoretical test is the next step. The theoretical test takes place every Thursday in the driving school and on the day of the test we need a passport photo of you - so say cheese :)
Driving lessons SeeStadt + surroundings	Ready to drive? Well then, let's get started :) The 18 legally required driving lessons (9 double driving lessons, one of which is driving at night and one is the evaluation lesson) can comfortably and easily be booked in the Fahrstundenportal from home or on the go. It is only possible to book the lesson for driving at night when you have received the go ahead for it and the evaluation lesson must be completed after the night driving lesson:)
First aid course Optional/driving school	The first-aid course is legally required for all driving license class B applicants and must be completed before the practical test at the latest. You can complete the course at any certified provider offering a legally compliant course. If you have already completed an equivalent first aid course (at least six hours), then the certificate for this course is sufficient. By the way, you can also do the first aid course with our visiting provider.
Practical driving test SeeStadt + surroundings	Finally, the driving test...:) You have now completed the doctor's report, the theoretical course and the theoretical test, as well as the first aid course and the driving lessons. Only the practical driving test remains - but don't be nervous, OK? The test is not about being the best driver in the world, but about being a competent, safe and responsible traffic participant. So keep calm and be proud that you've come this far - we already are :)
Mehrphasen After the driver's license...	After passing the practical test, a second educational phase has to be completed - the Mehrphasen. This must be completed within 12 months of receiving the driver's license and consists of two double lessons in the driving school and a driving safety training in a driving safety center. You can also do the Mehrphasen training with us. More information is found here.
