

FaceBook AD copy for The Farmer's Dog

Did you know that what you're feeding your dog could be doing more harm to them than good?

Studies show that store bought kibble can is similar to fast foods.

The ingredients are often processed at high temperatures, destroying many of the nutrients that are good for your dog while keeping the large amounts of calories per serving.

And research shows that processed foods lead to obesity, heart diseases, diabetes, cancer, and more.

Now, if you want to start feeding your dogs *REAL* foods, portioned exactly to them with the right nutrients, click the link below to unlock 50% off your first order.
