

Woodlands at Greystone Landscape Committee Guidelines and Maps

The Landscape Committee has developed a set of guidelines to help homeowners understand the services provided by the Homeowner Association, Service Providers, and what are homeowner responsibilities.

Guidelines

HOA and Service Provider Responsibilities - [Click Here](#)

The community is maintained by the HOA. Service providers are contracted to manage and maintain the landscape. This guideline provides details on the responsibilities of the HOA and items that fall outside the HOA (e.g., developer, township, etc.).

Homeowner Responsibilities - [Click Here](#)

Residents are expected to maintain their property according to the community standards. This guideline provides details on what property is the homeowners responsibility and what modifications they can make with or without approval.

Winter Weather Event Guidelines and Assistance Program - [Click Here](#)

Residents need to be aware of the winter weather event procedures and responsibilities. This guideline provides details on how services will be applied, responsibilities of vendors and homeowners, and how to get some assistance if you need it.

Maps

The Landscape Committee has collected a set of maps that may be useful to homeowners regarding the community, trails, and HOA responsibilities.
