

# Pika Release Notes 2017.09.0

Released Oct 3, 2017

## New Functionality

- Added sorting options for MyHolds page
    - Available Holds options :
      - Title, Author, Format, Expiration Date (default), Pickup Location
      - Library Account (when there are linked accounts)
    - Pending Holds options
      - Title (default), Author, Format, Status, Pickup Location
- 
- The screenshot shows the 'Pending Holds' section of the Pika interface. It includes a light blue informational box stating: 'These titles are currently checked out to other patrons. We will notify you when a title is available.' Below this, there is a 'Sort by:' dropdown menu currently set to 'Title'. The dropdown menu is open, showing the following options: 'Title' (highlighted in blue), 'Author', 'Format', 'Status', and 'Pickup Location'. To the right of the dropdown is a 'Hide Covers' checkbox, which is currently unchecked.
- Position (in queue) (Horizon, Koha, Symphony, CarlX libraries; also the default for these libraries)
  - Date Placed (Symphony Libraries)
  - Library Account (when there are linked accounts)
- Pika Opac Admins can now enable “Offline Mode” from the catalog

- Backend configuration setting to allow logins while in offline mode must be on
- Set System Variable “offline\_mode\_when\_offline\_login\_allowed” to “true”

**System Administration**

System Variables

Id	Name	Value	Actions
	offline		
18	last_offlinecirculation_time	1507606141	<a href="#">Edit</a>
35	offline_mode_when_offline_login_allowed	false	<a href="#">Edit</a>

**Name**

offline\_mode\_when\_offline\_login\_allowed

**Value**

true

[Save Changes and Return](#) [Save Changes and Stay Here](#)

The circulation system is currently offline. Access to account information and availability is limited.

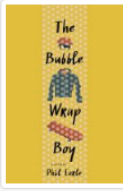

- Note: If the circulation system is already down, the Opac Admin won't be able to initiate offline mode from the catalog
- Recommended For You browse category
  - Only displays when the user is logged in and has rated titles

- To enable Recommend For You browse category

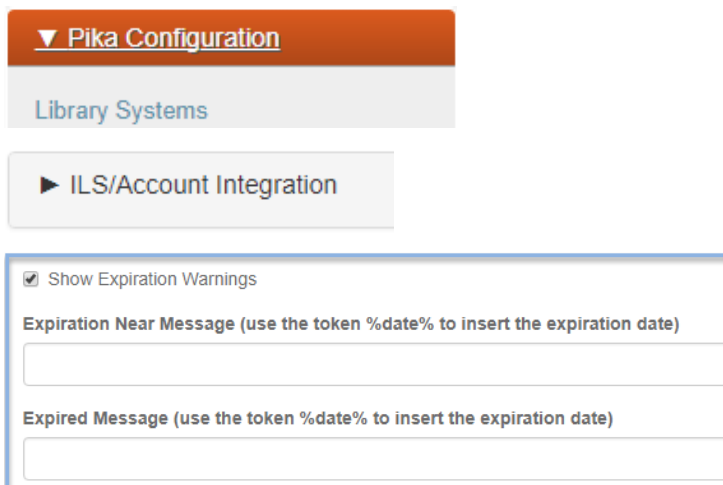

**Note:** The R & D team would like another Sprint to perfect the process for the Recommend For You browse category.

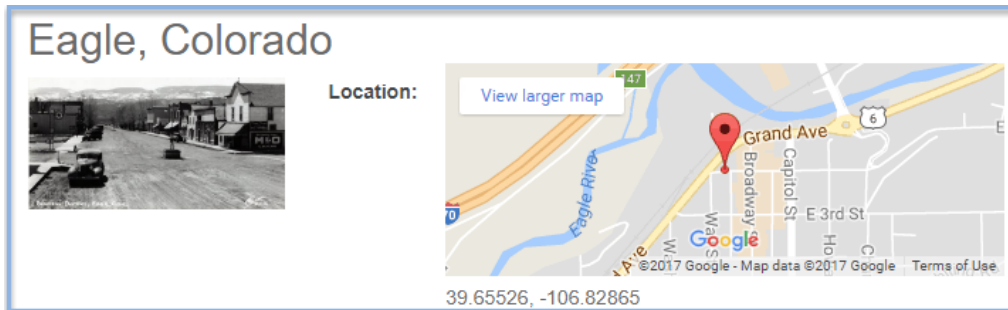

- Aspcat format determination “by popularity”
- Archive Book and Page Views now have consistent viewing options
- Archive Collection (Exhibit) page random image generator can now display any archive object

- Sidebar expired card notice now customizable per library, with a substitution tag for the expiration date

- All metadata for place entities are now displayed including the map view

- Archive Usage page now has a total usage row at the bottom of the table

- Imported into the Archive EVLD's Local History collection

## Bug Fixes

- Archive metadata audit
  - People
    - Demographic Details - All races and ethnicities displayed
    - Academic Record - Fixed links to publications in the archive
    - Military Service - all places served in the general place category are displayed
  - Places
    - Address & Latitude, Longitude are displayed
  - Organization
    - Addresses - corrected display of latitude and longitude

- Events
  - Addresses - corrected display of latitude and longitude
  - Related Events - now parent event display the (parent) notation
- Objects
  - Rights Statements - duplicates of rights holder are not displayed
- Marmot indexing updated so items with Display, Library Use Only, and Reserved Use status can be shown as checked out.
- Prompt to place hold on an alternate edition for other unavailable statuses in addition to Checked Out.
  - Currently Unavailable, On Order, Coming Soon, In Processing, or Library Use Only
- Fixed upload of custom covers for Marmot and Aspencat
- Log correct date-time of last extract for Overdrive extracts
- Some Pika servers were not restarting their web server on a nightly basis which could lead to poor performance as time went on.
- Marmot reading history was not updating in nightly cron process
- Fixed copy count and hold queue lengths for CarlX (Nashville)
- Changed media code used to determine CarlX On Order records
- On Manage Request page, the ID filter label was updated to Request IDs for clarity

## Sideloads

- Change Western's ebrary sideload name to ProQuest Ebook Central

## Additional Work

- Removed User Suggestion code, originally developed when Marmot began working on a fork of VuFind
- Preparation for MUG 2017 Presentations
- New Digital Archive brochure for CALCON 2017
- New styling of marmot.org
- Autumn background image for Pitkin header
- Themes for Gunnison High School and Pine and Plains Libraries
- Added library foundation logo to sidebar for Anne Arundel
- Minor clean up for Flatirons server migration
