
Stats Game Scenarios Quiz

1. 8mm Restart

Player A is fouled in the 8-meter arc. The official blows the whistle and signals restart from the 8mm arch. Player A sets up, waits for the whistle, and shoots the ball directly into the net.

- A. *Question:* What statistics are recorded when Player A is from our team?
- B. *Question:* What Statistics are recorded when Player is A is from the opposing team?
- C. *Question:* What Statistics are recorded if Player A is from our team and her shot misses the goal
- D. *Question:* What Statistics are recorded if Player A is from the opposing team and misses the goal.

2. The Ground Ball Scrimmage

A pass by an attacker from Team A is tipped by a defender from Grant #1 causing it to hit the turf. Players from both teams converge, kicking and poking at the ball. A different defender from Grant #5 eventually scoops the ball out of the pile, gains clear possession, and sprints away.

- A. *Question:* What Stats are recorded for the Grant Players?
- B. *Question:* What Stats do you record for Team A's Player?
- C. Question: What stats are recorded if the goalie picks up the ball, not player #5?
- D. Question: What stats are recorded if instead of tipping the ball Grant player #1 intercepted the attackers pass?

3. The Pipe Ringer

Grant Player takes a hard overhand shot. The ball hits the left pipe with a loud "clink" and bounces out of bounds. The official blows the whistle and awards the ball to the defense, who was closer to the end line.

- A. *Question:* Does the Grant player get credited with a Shot on Goal (SOG)? Why or why not? If not, do any other stats the need to be recorded.

- B. *Question: If it is was the opposing team taking the shot and it hit the pipe what stat is recorded for our goalie?*

4. The Defensive Stand

A Grant defender engages an attacker running up field, she blocks her path causing the attacker to step out of bounds. Grant is then awarded the ball.

- A. *Question: What statistics are awarded to the Grant Defender?*
- B. *Question: if two Grant defenders engage the attacker causing her to drop the ball and one of the Grant defenders pick it up. What stats are given to the Grant Players.*

5. The Draw Control Duel

At the start of the half, the ball is tucked between the sticks. On the whistle, the ball flies high into the air. Player E jumps, taps the ball toward her teammate, Player F, who catches it cleanly.

- A. *Question: Which player is credited with a Draw Control (DC)?*
- B. *Question: Is the player who gains possession of the ball awarded a GB?*

6. The Assist Logic

Player G drives toward the goal, draws two defenders, and passes to Player H. Player H catches the ball, takes two steps to dodge a crashing defender, and scores.

- A. *Question: Does Player G get an assist?*
- B. *Question: What is the "limit" on steps or time for an assist in lacrosse?*
- C. *Question: If Player H shoots and the goalie saves the shot what stats are recorded and for who.*
- D. *Question: If Player H attacks the goal, doesn't shot then, runs around the back of the net, then shoots and scores does Player G get an assist?*

is

7. The Goalie's Reflex

The attack fires a low bounce shot. The goalie gets her shin guard on the ball, slowing it down, but it continues to trickle toward the goal line. The goalie then reaches back and clamps her stick over the ball before it crosses the line.

- A. *Question:* Is this recorded as a Save?
- B. *Question:* Are there any other stats recorded for the goalie?
- C. *Question:* If the goalie catches the shot but its outside the frame of the goal is it recorded as a shot and a save for the goal? What, if any, stats could the goalie be given in this scenario?

8. The Midfield Interception

A Grant midfielder reads a long clearing pass from the opposing goalie. She leaps into the air, catches the pass, and immediately starts a fast break for her team.

- A. *Question:* This play results in two stats for the Grant Player. What are they?

9. The Boundary Chase

A Grant attacker #6 takes a shot that goes wide of the goal. A different Grant Player #3, sprints to the end line and is the closest person to the ball when it goes out of bounds. The official gives the ball to Player #3 to restart play.

- A. *Question:* Does Grant Player #3 receive a Ground Ball (GB) credit for "winning" the ball back for her team?
- B. *Question:* If Grant were defending this play and gained position of the ball after the opposing teams shot is the Grant Player awarded a DB or Caused Turnover.

10. The Unforced Error

Player A is running down the sideline with no defenders within 5 yards of her. She tries to switch hands, but the ball simply falls out of her pocket and rolls out of bounds. The other team takes possession.

- A. *Question:* Is this recorded as a "Caused Turnover" (CT) for the nearest defender?

- B. *Question:* If player A drops the ball and it does not go about of bounds. Then a group of players coverage on the ball and fight for possession. If Player A's teammate pick ups the ball are they awarded a GB?

Answer Key

Answer key

1. 8MM Restart

1. Shot on Goal and Goal.
2. If it's a home game, we record the player # and time of goal. If it's an away game no stats are recorded
3. Shot off Goal
4. None

2. Ground Ball Scrimmage

1. Grant player #1 is awarded a caused turnover, Grant Player #5 is awarded a Ground Ball B
2. None
3. GB is given to the Goalie
4. Grant Player #1 is awarded a caused turnover and a Ground Ball

3. Pipe Ringer

1. No: Shots that hit the pipe and do not go in the goal are not considered a shot on goal. They are recorded as a Shots- off-goal for the shooter
2. No stat would be given to the goalie. There are only two goalie specific stats. Shots on goal and Saves.

4. Defensive stand

1. Caused Turnover is given the Grant defender.

2. Both Grant defenders can be awarded a Caused Turnover. The Grant defender that pick out the ball would be given a ground ball. The choice to award both player a caused turnover is a judgement call

5. Draw Control

1. Player F: The DC goes to the player who *gains* possession, not necessarily the one who wins the scrap or the tap.
2. No, GB are not awarded for the initial possess of the ball after a draw control.

6. Assist

1. Yes:
2. Usually, if the scorer takes "more than two or three steps" or has to make significant effort evade excessive defensive pressure, the assist is not given, but it is often a "judgement call" based on whether the pass its integral to *creating* the scoring opportunity.
3. Player H is given a Shot on Goal, The goalie team would give the goalie a shot on goal and a save.
4. No. because of Players H's movement after receiving the pass from player G the pass was no longer integral to *creating* the scoring opportunity. The scoring opportunity was created by play H's own movement around the goal.

7. Goalie Reflex

1. Yes: Any action by the goalie that prevents a ball that "would have otherwise gone into the goal" is a save.
2. Yes, a shot on goal is also recorded for the goalie
3. No, since the shot was off goal it's not concerned a shot on goal nor a save for the goalie. However, it is considered a ground ball for the goal but not a cause turned over. Caused turn over can be awarded to the goalie but not as the result of a shot.

8. Midfield Interception

1. Caused Turnover and a ground ball.

9. Boundary:

1. No, being closest to a shot that goes out of bounds is a procedural restart, not a Ground Ball.
2. No, possession gained after a shot is not consider a ground pall our caused turnover for the defensive field players.

10. Unforced Error

1. No, this is not consider a caused turnover
2. No, since possession did not change from one team to another Player A's team is not awarded a GB.

11.
