

PRIVACY POLICY

At Athanotify, we are committed to protecting the privacy of our users and their personal information. This privacy policy outlines the types of information we collect and how we use it to provide our services.

INFORMATION WE COLLECT

Athanotify does not collect any personal information that can be used to uniquely identify or contact an individual. This includes information such as your name, address, phone number, and email address.

We do collect certain technical information about your device and your use of the app, such as your device's unique identifier, IP address, and information about how you use the app. This information is used to improve the performance and functionality of the app and to ensure that it is functioning correctly.

PERMISSIONS AND USAGE

Athanotify requires certain permissions to provide its services. These permissions are necessary for the following purposes:

- READ_PHONE_STATE: This permission allows us to determine the current state of the phone when playing the Azan (Islamic call to prayer). If a phone call is received while the Azan is being played, we will provide an alternate notification to ensure that the audio playback is not disrupted.
- ACCESS_FINE_LOCATION: This permission enables us to generate prayer times based on your location, using your longitude and latitude coordinates.
- WRITE_EXTERNAL_STORAGE: This permission allows us to download and save Azan audio files to your device. This ensures that the audio files are readily available for playback, even when you are not connected to the internet.

We do not share any user identifiable information with third party entities. We may share aggregated, non-personal information about the use of our app with third parties for the purpose of analyzing trends and improving our services.

CHANGES TO THIS PRIVACY POLICY

We may update this privacy policy from time to time to reflect changes to our practices or for other operational, legal, or regulatory reasons. We encourage you to review the privacy policy whenever you access our app to stay informed about our information practices and the choices available to you.
