Templates for presentations

I. Introduce yourself
   a. Who, where, acknowledge others involved
II. Lay out the problem, issue or question- what it is that you care about
   a. Really briefly
III. Why you care (objective is to get you into the room)
IV. And why they should care (the ain't it awful)
   a. Add in a little bit of lit review to help people out with where you're going
V. Lay out the question
VI. Methods
   a. What did you do?
   b. How you analyzed
VII. What did you find?
   a. 2 or 3 graphs are plenty
   b. IOC (Inter Ocular Trama)- do they get it?
VIII. What it all meant?
   a. Restate your question and *undersell.* "This one study suggests that just maybe blah blah blah happened."
   b. Contextualize
IX. What's next?
   a. Basically this could possibly be related to this..
X. Remind them who you are
   a. Your name and email address
