Historical results: shows and movies I have loved and will keep rewatching

I only have a finite amount of time to devote to watching TV. Watching something new necessarily means not spending that time rewatching something from this list.

TV series ←these are so few, this is probably a complete list

Avatar: The Last Airbender and Legend of Korra
Blackadder
Buffy the Vampire Slayer
Cosmos
Doctor Who: classic series and 2005 revival
Fawlty Towers
Firefly
From the Earth to the Moon
Frontline
Ghost in the Shell
Monty Python's Flying Circus
The Muppet Show
To the Manor Born
Star Trek: original series, animated series, and The Next Generation
The Twilight Zone: classic series and 1985 revival
Yes, Minister and Yes, Prime Minister

Beauty and the Beast probably belongs here, but I don't own it yet and memory might be cheating :)

Bubblegum Crisis as well
