

Delphi Killer's Wife Breaks Silence on Gruesome Murders

August 11, 2025

Abby and Libby had gone on a walk, but we went to pick them up. They weren't there. A new series dives deep into the Deli

0:06

murders. The case against Richard Allen and the stories of Abby's and Libby's families left to mourn the girls. Plus,

0:13

Allen's wife Kathy speaks publicly for the first time. My name is Kathy Allen and I am the

0:19

spouse of Richard Allen. I look at what the series reveals and talk with one of Allen's trial attorneys, the guy on the

0:25

Snapchat video. Bridge guy. I mean, can you admit that it does sound like

0:30

Richard Allen? [Music]

0:39

Welcome to Crime Fix. I'm Anget Levy. February 13th, 2017 is a day that

0:44

changed the small town of Deli, Indiana forever. The city of nearly 3,000 people

0:50

lost its innocence and was thrust into the international spotlight after two young girls went out for a walk on a

0:57

trail and never came home. I've told you about the Deli murders many, many times

1:03

here on Crime Fix. And now a new docue series on Hulu, produced by ABC News Studios, is taking a deep dive into the

1:09

case. The man who has been convicted of murdering Abby Williams and Libby German

1:14

is in prison serving life sentences for the crimes, but his wife Kathy is standing by him and speaking for the

1:21

first time publicly in capturing their killer, the girls on the Highbridge. But just a quick refresher on the case. Abby

1:28

Williams and Libby German, they were best friends. That Monday, they happened to be off school and it was warmer out

1:34

than normal. So Abby and Libby, they asked Libby's older sister if she would drop them off at the trails. So off they

1:41

went. Little did Libby's family know, it would be the last time they would ever see the girls. No one could reach

1:48

Libby when they tried to call her cell phone a couple of hours later, and that wasn't normal. The only clue at that

1:53

point, this photo of Abby on the Mon High Bridge. Abby and Libby were reported missing that night, and a

1:59

search started. The two best friends were found the next day near Deer Creek. Both of their throats had been slashed.

2:06

Libby was nude and appeared to have tried to protect her throat. Abby was wearing Libby's clothes and her throat

2:12

had been cut just once. This crime would be terrifying and shocking if it happened anywhere. In a small town like

2:19

Deli, it was practically unimaginable. This is not something that would happen in a place like Deli, Indiana, but it

2:26

did. A killer was on the loose and no one knew who it was. Was it their neighbor, their father, their friend?

2:32

And then a break. Days after the murders, Libby had recorded a man on the bridge.

2:49

The search for Bridge Guy went on for years, and people thought it would only take days, weeks at most. But the video

2:56

wasn't crystal clear. Only a small portion of the video was released to the public back in 2017. It was enhanced.

3:03

I'll show you that longer version later. In the new series, Richard Allen's wife Kathy, she calls him Ricky, said that

3:09

years had passed and then Indiana State Police came knocking on their door. She describes him as a family man. She said

3:16

that Ricky was off work on February 13th and she came home from work and he was laying on the couch and the news came on

3:22

about Abby and Libby being missing. Then she said Ricky told her that he was out on the trail that day and she told him

3:29

he should call police and he did so. Kathy said Ricky met with a conservation officer in a parking lot and they heard

3:35

nothing more. Kathy said they didn't walk on the trail anymore. She said that years passed and then officers came

3:42

knocking on their door to talk to Ricky. Kathy Shank, a clerk volunteering, had

3:48

found Richard Allen's name on a report that was filed away incorrectly and marked for followup. In October 2022,

3:54

Indiana State Police came looking for Richard Allen. I can tell you that if that picture was

4:01

I mean, you can you can you can sit and take anybody and say, "Well, if they were wearing this and wearing that, that

4:07

could be done." If that picture was taken from one of the the girls phones, it's here's the problem. Maybe because

4:13

I've never met him. No, but listen, here's the problem with that. You know why you can put a lot of people and and

4:19

say they're wearing blue jeans and a blue coat, but you know what the difference is?

4:25

No, you said you were there. Well, sure. We have people that saw you

4:31

said you were out on the bridge yourself. There aren't that many people that saw me. I mean, I'm sure I didn't miss that many people if they walked

4:38

behind me, I guess. Kathy Allen said that her husband, he knew something wasn't right as he was

4:43

being interrogated. That interview was on October 13th, 2022. Then 13 days

4:49

later, Richard Allen went to pick up his car and the questioning resumed.
Okay. Okay. So, we took your gun, your

4:56

40 cal cow uh Sig, and we sent it down there to the lab to

5:01

have it matched with an item that we located on February the 14th when we
found the girls.

5:07

Okay. And that item was a 40 caliber Winchester round. We found that at the
5:14

scene. Okay. The extraction marks on that round match your gun.

5:19

Perfect. So this is okay.

5:24

Just hear me out. I'm just trying. I am. So this is the round. Okay. Those are

5:31

the extraction works. That's the best picture of them. There's actually three
of them. I don't even know how my bullet would

5:37

have gotten out there. If that's my bullet, there's it's without a doubt that this

5:43

is very okay. Scientific. So let me show you a picture of this round where it
was found.

5:51

That's the round right there. It hadn't been out there very long. That is

Liberty's foot. It's within 6 in of of

5:59

one of the dead girls' bodies. There's no way. It There isn't. I'm telling you
there's not. How How do How did that round get there,

6:06

Rick? I don't know how the round got there. What I'm telling you is if that is
truly

6:12

what you're saying it is, it's not my It's not my round. I cover a lot of

6:18

really scary crime stories here on Crime Fix. And if it's taught me anything, it's that privacy and personal safety

7:50

enters the interview room. Don't know. How did How did a bullet from your
gun get out there? I don't

7:57

know, honey. Cuz they say it came from our gun. I know that's what they're
they believe

8:02

me. That's what they're telling me. But how did it get there? I don't know.

8:09

And they said there was one in your box above your dresser to match it.
They showed me that picture, too. I I

8:16

can't explain it. And I don't I can't either. They keep asking me, and

8:21

I don't know how to answer that. Richard Allen is charged with murdering
Abby and Libby more than 5 years after the

8:27

murders. For a reason, not because of trying to kill somebody. You're trying
to tell me that I I'm not

8:33

making this around up, Rick. It is what it is. I'm done talking. Arrest me.

8:38

The Hulu series touches on some of Richard Allen's jailhouse confessions.
He called his mother and his wife

8:44

several times from the prison where he was being held and confessed.

8:49

I just wanted to apologize to you. What's going on?

8:56

I did it. No, I did it. What?

9:01

I killed Abby. I killed Abby and Lily. No, you didn't.

9:07

Yes, I did. No, you didn't, Darren. Yes, I did.

9:13

Don't say I don't know why. No, you didn't.

9:19

No, you didn't, dear.

9:25

You're not feeling well. There's something wrong. They've messed up your
meds or something there.

9:32

No, I I mean, I inevitably did it. No, you didn't.

9:38

Why would you say that? Because maybe I did.

9:43

No, you didn't, dear. I think I did.

9:49

No, you didn't. They are screwing with you there and I'm

9:54

trying to get to the bottom of it. There's something wrong.

10:00

They are messing with you. They are messing with your mind. And that
wasn't a one-off. Ricky Allen

10:06

said that he did it many, many times. His lawyers would say it was due to the conditions he was being kept in

10:11

pre-trial, a maximum security prison, not a county jail, and he was being medicated.

10:17

I get it.

10:22

Captain, I did it. Do you still love me?

10:34

Yes, dear. But you didn't do it. Allan's trial was held in the fall of 2021 with a jury from another county.

10:42

The juror saw the entire video of Bridgegu recorded by Libby German. Take a look.

11:01

See, this is the path that we go down.

11:10

Um, there's no path going there, so we have to go down here.

11:30

The video is haunting. It shows Abby and Libby in their final moments, and you hear one of them say at the end,

11:36

"There's no path." And a man saying, "Guys, down the hill." Ultimately, the

11:41

jury believed that Richard Allen was that man. The new Hulu series also features interviews with Abby and

11:47

Libby's family and friends. Their lives forever shattered by losing the girls. In the series, Kathy Allen says she

11:54

wants true justice for the girls, and she says her husband is innocent. I want true justice for Abby and Libby,

12:01

but it should not be at the expense of an innocent person. We know this bridge guy took the girls

12:08

and they proved Richard Allen was bridge guy. I want to bring in Andy Baldwin. He is

12:14

one of Richard Allen's trial attorneys. He defended him at his trial where he was ultimately convicted of murdering

12:21

Abby and Libby. Uh thank you so much Andy for joining me. I really appreciate it. Uh first off, I want to get your

12:28

thoughts on this new docu series which has premiered recently on um Hulu.

12:35

Yeah, we were approached after the trial by many, you know, um different formats

12:41

uh to uh participate in some type of documentary or something. And what

12:47

appealed to us about the Hulu was really the attachment of ABC News to it because

12:53

what we did not want we wanted credibility with this um project

12:58

um and I think ABC News provided that um credibility because what those that

13:04

don't know about the Deli world is it's very very divisive. There's two distinct

13:10

camp. There's the pro- Richard Allen camp and the anti-Richard Allen camp.

13:16

Those that think that he's guilty and those that don't. And and both camps are super passionate. And then there's this

13:21

middle lane, I think, where people maybe they were uh in the Karen Reed um you know, watching that and then now they're

13:28

looking for something new to invest their time and energy in. And those are the people that I think would would like

13:35

the Hulu. um versus if if we what we if what we had done was go out and um
I

13:43

guess had a complete defense uh take on this one-sided take then

13:49

that's that's not that that could take away from that middle lane of people that that they could say well this I don't know that how much of this I can

13:55

believe so we wanted an evenhanded approach a journalistic approach on this first um you know docu series and that's

14:03

why we agreed to participate and I thought They did a pretty good job. There's a lot of stuff that's missing. Um, they just didn't have the time for

14:09

it. It's I'm not I don't know how that side of the business works. So, we did way more interviews in terms of hours

14:16

and hours of interviews and there was a lot of detail in and it'd be hard to get that minutiae out there because it is a

14:21

very it this case is steeped in facts that you know one fact links to the other and you have to know the first

14:27

fact before you know the second fact and and it's very complicated. So, but for I'm very pleased and I I would encourage

14:34

people to go watch it because they will when you watch it, you you can kind of dip your toe in the waters of Deli and

14:41

start to understand u by watching it, especially the second and third episodes why there's a there was an injustice

14:47

here. At least that's our perspective from the defense. Um but I you're talking about how

14:53

divisive this case has been. And it's been incredibly divisive. Um it it to me

14:59

it it's kind of insane how divisive it's been. And that happens sometimes in

15:04

these huge huge cases. These cases that really seem to grip people and it breaks

15:10

people into these almost tribal camps where you've got one side saying no the

15:16

guy did it and then the or the gal did it and then um you know the other side saying no this person is innocent or is

15:23

being railroaded. In your experience as a criminal defense attorney, I mean, why why do you think this happens? I mean,

15:29

you brought up the Kieran Reed case. We saw it happen in that case. We saw it happen deli case. What's your

15:35

thought on that? Yeah, it's a good question. I think it has a lot to do with social media. Uh

15:41

I've done this over 30 years. I've had some big cases and and there were people that were, you know, in one

15:49

camp or the other, but it never got to this um level of uh heightened scrutiny.

15:56

I mean, we have people in this case that are watching it uh from Zimbabwe,

16:01

Scotland, South Africa, Australia, um all over the world, and they are

16:09

invested in this case. And I I think a lot of it as it relates to Deli, as it relates to the Delphi case, I think a

16:15

lot of that comes from the the air of mystery and secrecy that that um was

16:21

going on in this case for the first um whatever seven, six, seven years before the

16:28

Frank's memo came out. And that's uh for those that don't know that was a

136

16:33

page memo that we put out that revealed a lot of before information that had

16:39

never been revealed before as it was part of a filing that we needed to to do. We're trying to suppress some

16:45

evidence and once that came out then it really hit into high gear. I didn't know

16:50

what I was getting into when we filed that thing in terms of uh how it would affect worldwide attention. I had no

16:57

idea about that because we're just we got our head down and we're just plugging away and then the next thing

17:03

you know all this attention is out there. So, as it relates to the Delphi case, I think the secrecy just created

17:08

the lack of transparency. And that's been a real problem in this case over the the entirety of the case is a lack

17:14

of transparency. And it just breeds, you know, uh conspiracy theories and and uh

17:19

things that uh you know, people out there, they just we the people, we want transparency. We deserve that. And we

17:26

didn't get that in this case. And you know, Karen Reed is a great example. I didn't really have time to follow that

17:32

case, but the more and more I hear about it, the more and more I think, wow, this case deli is very very similar to the

17:39

Karen Reed case in so many different ways. Yeah. I mean, I I I think there are similarities. Um, but Karen Reed, I

17:47

mean, that was like next level um for many reasons. Uh, but we won't go into

17:52

that right now. Maybe you and I can talk about that off camera. Uh but I want to let's but I you know that was kind of

17:58

like on steroids uh the Karen Reed case but le let's go back to your Frank's memo for for our viewers who may not be

18:04

familiar with what that means. Um you know a a Frank's motion um is basically

18:10

when you say hey we want this evidence thrown out because we think the cops

18:15

lied. And that's where you kind of um came out and you talked about the

18:21

Odinist theory where there may have been some like ritualistic stuff going on

18:26

with these with these murders that some Odinists may have murdered Abby and

18:32

Libby. Um, so that's where, you know, that really caught fire. And I think on

18:38

social media in particular, anytime you bring up something like that with like a conspiracy theory, a potential

18:44

conspiracy theory attached to it, it it just goes off like wildfire.

18:50

Yeah, it does. I would encourage anybody that's super interested in this case or even moderately interested to go online.

18:57

I think you can find the Frank find the Frank's Mo memo by just googling Frank's memo deli or something. and it's 136

19:03

pages and it's not it doesn't read like a a legal document. Um it really and it

19:09

lays out um all the reasons why we we feel that the police were deceptive when

19:15

they sought a search warrant for Richard Allen's house. Um just as an example, just as a a brief example,

19:22

um the one of the people that they uh use in the in the context of their

19:29

probable cause affidavit to get into a citizen's house. I mean, let's talk about what that is. They the police

19:36

filed a document uh swore under oath that it was true and it was accurate and the prosecutor Nick Mleland, he signed

19:42

off on it as approving it. They sent this to then to a judge and then the judge read it and said, "Okay, there's

19:47

enough probable cause here for us to get into a citizen's house." That's the government getting into somebody's house. That's a high bar. It should be a

19:54

high bar. And and that document needs to be very very honest. It needs to to be

19:59

very, you know, show the truth. And what we uh what we showed and demonstrated uh

20:05

as it relates to Odinism is there was a whole other uh uh investigation going on

20:10

of very very viable subjects and we that should have been included. Hey judge,

20:16

here's why we want to get into his house. But to be fair, we ought to let you know that there's all these other pe people that are out there. There's some

20:23

debate on that from lawyers about whether that should be included, but that wasn't all. I mean, what really

20:28

bothered me was one of the witnesses, uh, her name is Betsy Blair, and Betsy

20:34

saw a guy on the trail or on the bridge that they're claiming she saw Richard Allen before he followed the girls and

20:40

abducted them. What they didn't tell uh the judge or Tony Ligot was the sheriff

20:46

at the time. What Tony Liot did not write in the probable cause affidavit and what Nick McClean the prosecutor

20:52

approved of in the probable cause affidavit was leaving out this very big detail. What the person that saw Richard

21:00

Allen um described was a 20-year-old um boy basically with brown poofy hair.

21:08

And that does not describe Richard Allen at all. Other things that were uh talked about um that that were contained in

21:15

that document that just weren't true were three girls or four girls on the trail that said that the police say and

21:22

the probable cause affidavit liot says is that they they saw Richard Allen. And

21:27
what the the probable cause affidavit doesn't say is um Richard Allen is 5

21:32
foot five and these girls were describing somebody that was 5'11, wasn't short by any stretch. He's he's

21:38

the type of short that when you see a guy like him, you're like, "Wow, look at that short guy." Okay. And not one

21:44

person not one person that that is in contained in that probable cause affidavit said the guy was short. Um and

21:52

Betsy Blair also saw if if Richard Allen's the the police say that Richard Allen's vehicle was parked at this

21:58

certain lot and that after he killed the girls, he got on a this is their theory. It's ridiculous, but they that he got

22:04

walked up the hill, walked down to 300 North, which is a pretty heavily traveled road. I mean, and uh after he

22:11

killed these girls, you know, it just and he walked to his car. So, he the car

22:17

was at the parking lot uh from 1, according to the police from like 1:30 until 400 p.m. Well, Betsy Blair passed

22:24

that parking lot um when that car when a car was there. And the car that she

22:29

described was a 1965 Mercury Comet, an old school, you know,

22:36

angular car. And and Richard Allen doesn't drive that. And that was not put into the probable cause affidavit. So

22:43

there was just all kinds of of um dishonest um things that were left out

22:50

that if you were a judge, you'd if you were being honest, you'd say, "Now, to be fair, judge, uh she the the person

22:56

that we're saying described Richard Allen. She didn't really describe him. She described a 20-year-old guy with a brown poofy hair and the car that she

23:03

saw was a was an old uh comet. And so that doesn't really fit Richard Allen's

23:09

car. And then the judge would be like what what a good judge would be at least would well gosh I'm not going to sign off on a probable cause affidavit

23:15

knowing this information. So that's the purpose behind the Frank's memo.

And it just so happened that the Odin stuff

23:21

was, you know, we were we then realized that, wow, there's all this strong

23:26

evidence that Odinism was that this was a ritualistic crime scene. And we

had an

23:32

expert that that she basically works for the federal government teaching the FBI

23:38

and um other state and local and federal law enforcement agencies what does this

23:44

ritualistic crime scene look like? and she testified under oath that and she normally testifies for the police, okay,

23:49

for law enforcement. She said this is a textbook ritualistic crime scene and nobody debated that. I mean, the state

23:56

of Indiana did not put on one witness to say this is does not look like a ritualistic crime scene. They don't know

24:02

that's not, you know, these are small town police and and state police that never would have encountered this uh

24:10

bizarre crime scene where the girls were found. You know, one thing I I do have to kind

24:16

of push back on a little bit though is the fact that yes, they had this invest they were looking into this Odinness

24:22

thing or there was this investigation going into Odinism. But I mean, when you're you're preparing probable cause

24:27

for a search warrant though, I mean, you're looking for probable cause for a search warrant. So, I mean, they don't

24:33

have to throw, you know, probable cause, you know, that's a that's a lower standard. So, like things that you're

24:39

bringing up though don't seem like they should go into a search warrant for probable cause for a search warrant.

24:44

That seems like almost like, you know, that's like defense stuff for trial.

24:51

I I don't disagree necessarily about the Odin stuff. I, you know, I try to be a fair guy. I think that that stuff um is

24:58

is debatable. Uh and perhaps perhaps I could even agree with you on

25:04

that. But what about that other uh leaving out uh that the person that Betsy Blair described? She's in the

25:11

probable cause affidavit and they're using her as you know a tent pole of this is this is a lady that saw Richard

25:17

Allen and he she described somebody that did not look anything like Richard Allen and the car that she described did not

25:23

look anything like Richard Allen's car that that that I I will push back with you on and I would you know I I presume

25:29

that you're going to agree with me and I should have included that. Yeah, it's a fair point. It's a fair point. Um, fair point. Um,

25:37

thank you for pushing back, by the way. I love media. It pushes back. Let's be fair.

25:42

I mean, I just think the Odinism stuff doesn't belong in in there. Um, you know, but anyway, we can move on from

25:48

that. Um, let's go back to um I want to talk to you about Kathy Allen. Um, kind

25:54

of breaking her silence in this docue series because I found her at the end of

26:00

episode one to be really compelling. um we've not heard from her except in

26:05

these jail calls. And you know, she's talking about this man that she has

26:10

loved and known for decades. She has spent her life with him. And what she is

26:17

describing is not some guy that goes out on a trail and with a box cutter and

26:25

corners two girls and takes them down a hill and slashes their throats. Um,

26:32

however, we have him on jail calls, more than one jail call saying, "Babe, I did
26:37

it." Um, and so it's just really hard to reconcile. I understand, you know, your
26:43

argument that he was um being kept in horrific conditions. You know, the the
26:49

state would say, well, he was it was for his own protection, things of that
nature. You know, he was being uh

26:54

treated with medications. You know, even I think his mom was saying,
"They're doing something to your food. they're

26:59

doing something to your meds. You know, we've got all these jail calls. He
didn't just say it once. He said it many

27:06

times. So, how do you square that? Well, one one simple way that the jury
should have been able to hear was and

27:12

is, and this was not part of the documentary, is um he was being guarded by
odinists.

27:20

How about that? I mean, in the world of criminal defense, um when you're
able to go in front of a jury and say, "How does

27:26

a guy confess to something that he's not guilty of?" Let's get leave out the
fact that he should never have been in a prison. That's totally crazy and

27:32

bizarre. Let's leave out the fact that he was in solitary. I agree with you on
that. I think that's nuts. All of that. Let's leave all of that

27:38

out. And let's just say like from a pure criminal defense strategy perspective
uh and maybe from a reality perspective as

27:45

well. He's being guarded by Odinist. And people might listen to this uh broadcast and say that defense lawyer is crazy.

27:52

But um we have photos. They admitted that uh he's being paraded around and

27:58

they're the these guards wearing Odin patches on their uniform in Odin we trust. That's what it said. Okay. Two of

28:06

them both wearing in Odin we trust patches and having the symbol of Odinism on their uniform. And that and that is

28:12

not a small thing. And I don't know how if these guys had anything to do with it, but you know, you could see a scenario where we don't know what's

28:20

going on inside of that prison and we don't know what's going on inside of these guards. And let me tell you something that happened in this case um

28:26

that you may or may not know about. While uh Richard Allen was never videotaped ever for the first four or

28:33

five months when when these um guards would come and bring him Richard to us to talk and to have uh private

28:40

conversations, we would go into a room privately and talk and nobody was watching or anything. We went into the

28:46

cap I think it was the captain's um conference room or something and everything was great. But then when Richard broke down, all of a sudden, the

28:53

very day that he breaks down, April the 3rd, 2023, these guards walk down the hallway with Richard and and he's all

28:59

shackled up and looking terrible. And they have a old school camcorder on top of their shoulder and they're

29:04

videotaping everything. And as they approach, I look on their uniforms and it says in Odin we trust. And nobody's

29:11

explained how that's improper or improper or anything. No, nobody from the Indiana Department of Corrections.

29:17

Well, then to make it even worse, uh I asked to go see his his uh where he's living, his living arrangements because

29:23

something was very wrong with him. They would not agree to that. Then to make it even more worse, the next time we came

29:29

to see Richard and the next few times I think we we saw Richard, they put him in a room with a glass wall and they

29:36

recorded with their camcorder these guards that were wearing the Odin patches. They required us to seat

29:43

Richard Allen facing them. Okay. And the way I interpret it and and so and

29:49

there's nothing we could do about it. There's nothing. You know, we're trying to have a private conversation with our client and they're facing uh the the

29:56

camera is facing Richard Allen's lips so they can see what he's saying. And it to me it came off as buddy, we're watching

30:03

you. We're watching you. You better you better keep you better keep on the party line there. Now, people can say I'm

30:09

crazy and that's fine, but everything I'm telling you is true. And when you read the Frank's memo, everything is is

30:15

u footnoted. Everything has got there's a so many exhibits in there that support everything that I say. So be before you

30:22

just kind of u poo poo it, read it, look at it, and if you disagree with it, that's fine. I get that. But that would

30:29

be one example. Another one uh by the way of why you should not trust these

30:34

confessions is he also confessed to shooting the girls in the back. He also confessed to killing his grandchildren.

30:39

He doesn't even have grandchildren, by the way. M he confessed to a lot of things that simply weren't true. This uh should put

30:47

some pause into anybody who's thinking that yeah, we believe these uh uh these

30:53

uh so-called confessions beyond a reasonable doubt. The guy on the Snapchat video, Bridge

30:58

Guy, I mean, can you admit that it does sound like Richard Allen?

31:03

I think it sounds like um Brad Holder. I think it sounds like Richard Allen. I think it sounds like my brother Danny. I

31:09

think it sounds like the guy that my neighbor across the street. I mean, um,

31:14

to say if that's what a jury's going to hang its hat on, then shame on them. I hope that's not what they hung their hat

31:20

on. How's Kathy Allen doing? I mean, as I

31:25

mentioned earlier, she's she's compelling in this series. I mean, she really believes in her husband.

31:34

She Kathy is as strong a woman as I've ever known. And we have a lot of regrets

31:40

from the trial. One of my regrets is not putting her on the stand. Yeah. I was going to ask you, why didn't you call her? Because she told him to go

31:47

to the cops. She said, "You were on the bridge that day. Go to the cops." Yeah. Um and and she would have been

31:53

great on the stand. Now, I I think those are game time decisions. We saw how the prosecution treated the daughter

32:00

Brittany um Rick's daughter when she was on the stand. And I think Rick part of that analysis was I don't think Rick was

32:07

looking forward to seeing his wife up there going under cross exam. He loves his

32:13

wife so much and you know part of the reason I think that there were u early on the judge would not let in a lot of

32:19

evidence obviously I think people that know the case would would know that. One of the things that happened on on um

32:25

early very early on when he was in there is he made a phone call, I think it was to his uh father, stepfather, and he

32:31

said, "I might as well just plead guilty like to to to alleviate Kathy of the
32:36

trauma that she's going to go through right now." Because he understood
that her husband was being accused of this horrific crime and he loves her
so much.

32:43

He wanted her to just move on. And he privately would tell us that all the
time, too. So, there's the there's that going on.

32:49

But Kathy's great. I mean, um, she's a fighter and, uh, she stands by him

32:54

1,000%. She knows that he didn't do this and, um, she's a very, uh, um, she's
a strong

33:01

Christian woman and she's she she prays a lot, um, like I do every morning.

33:06

Let's I pray that that the the killers or those who know who did the killing and
have information about that will

33:12

come forward to a credible law enforcement officer and to end this
nightmare. and we're still prayerful

33:18

about that and hopeful for that outside of the legal realm. Do you think that
Richard Allen gets a

33:24

new trial, you know, we trial lawyers, as I said in

33:29

the documentary, are superstitious and and for me it it it you know, it

33:35

I know that we should I know that we should and we have a great court of
appeals um 15 court of appel of appeal

33:42

judges in Indiana. It's a group of three that will ultimately uh make the decision. Um and those three people will

33:49

will have to be persuaded by briefing and um powerful writing. We have great

33:54

uh appellet lawyers on this case, Mark Leman and Stacy Ulana. They're very skilled, very brilliant lawyers and

34:00

they've got a lot The problem is they've got so much um appellet issues to deal

34:05

with that it's going to take them a while. My guess is it's going to take um if they have their briefing done by the

34:11

end of the year, I think it'd be it would be pretty extraordinary. That that means that they really put in the extra

34:17

time because this there is so much issue here. Um so many different appellet

34:22

issues that yes, I I do I hate saying it because I'm I'm superstitious uh trial lawyer, but I do feel strongly that this

34:29

is going to be overturned. We will wait and see. Um, you know, it's just a crying shame that cameras were

34:35

not allowed in that courtroom, especially since Judge Gaul was part of that, um, pilot program in Indiana where

34:43

cameras were allowed. I mean, I I was very hopeful when we found out about that and I'm a obviously a huge advocate

34:48

of cameras in the courtroom. You know, I think that would have been that would have been a good thing. Um, so I I think

34:55

that was was really sad that that didn't happen. Um, but Andy Baldwin, we will keep an eye on it. Thank you for your

35:01

time. may appreciate it. And that's it for this episode of Crime Fix. I'm Anget Levy. Thanks so much for being with me.

35:06

I'll see you back here next time.
