

**Avatar:**

Sami, 18 years old is a student who just graduated from high school and dreams of becoming financially free so he could help his family and retire his parents and let them enjoy life for the next few decades but doesn't know how to start.

**Pain:**

He doesn't want to study medicine or engineering as he doesn't find himself in those majors rather wants to make real money and one day run his business but doesn't know how to start this path.

**Dream state:**

Sami wants to become financially free to provide for his family, retire his parents and be also able to spend time with them and maybe travel the world, he knows he can achieve that through hard work and dedication.

**Current state:**

Sami just graduated from high school and is having an issue with how to start his business, he doesn't have ideas or capital to start but refuses to give up and wants to achieve his goals through hard work and dedication.

**Roadblock:**

He is lacking the knowledge and the ideas to start a business and also doesn't have capital and hates that he feels stuck.

**Solution:**

If he finds out about the drop shipping course and works hard toward making a success out of it he'll make all the money he wants and make his parents proud.

**Email sequence:**

**SL: will you apply my knowledge to make 10k/month?**

Does that sound like a fairy tale to you or some dream?

Well, I want you to itch your eyes so you'd know this is a reality.

I will let you know my formula to make that 10k per month and even more if you put in the effort.

You have no capital to start a business that requires more than 50,000\$ dollars to begin.

Or do you feel lost and out of ideas?

I'm showing you the door to make all the money you need and you won't have to be committed to some job or someone bossing you around.

If you want to know about our dropshipping knowledge and make the amount of income you desire click the link below to start.
