KTON DAO in ETH DENVER

I know you will be busy with RING DAO and HELIXBOX promotions so will be quick and short.

Priority is to ask **members of Base ecosystem projects** what they think are **5 flagship projects on Base**. Like a **survey**. You can give me **the results of their votes**. I think it would be great to get into Index the projects, that Base community is confident to flagship them.

- Most projects will be found on **Friday 25th at 3 PM (Captain Ethereum)** when **Tina He** and **Nick Prince** both from **Base** speak.
- Also on **February 28th at 11:10 AM (Regeneratooor)** **Aneri Amin** from **Coinbase/Base** will speak on **Bringing Creativity, Community and Culture Onchain**. Would be good to get her opinion and by that letting her know we build an Index.
