Hi Matt,

I'm Armaan Kumar. I stopped by your Redmond and Bellevue locations the other day and I have to say, I was really impressed with the quality of the Gyros. They were really delicious and were priced just right.

So, last week, I was eating your gyro at the park, and took a look at your Instagram, and I did like a lot of your content, but i do have an idea of how to improve this profile to get more likes and followers

I have connections to a group of people that can help make your social media profile into a better one. This idea can really help you make better posts to reach even more audiences and get more likes from customers.

Does this sound like it would be interesting to you?

My name is Armaan Kumar and I stopped into your shop the other day I found your sandwiches to be very delicious.

I am part of this marketing agency called Elevate Enhance Agency, and I believe that our agency has the tools to help increase the engagement rate of your Instagram posts. If the engagement rates, such as the likes and comments, increase, this can potentially translate in more people discovering your brand and buying from your shops.

If you are interested in getting more information, feel free to send me a reply and let me know, so we can discuss more about the tools we can provide for this.

Thank you
