Website

Updates made to the website over the last few weeks were sent to council on 11/5/2020. We also renewed our annual Wordpress Business subscription on the same day -- this allows us to have a greater level of customization on the Wordpress platform, as well as remove all non-AGLC branding.

As mentioned during the last meeting, any major website requests will need to be tabled for the time being. I am due to give birth next month, and my doctor thinks that it will be likely that we will induce early to avoid the worsening of some current complications (nothing dire just yet, but baby boy may be here sooner than anticipated). If there are small changes needed, I can help someone (maybe Vanessa) make them, or work on those changes when I have the time.
