

DESCRIPTION OF PROGRAMS

Workshop

Session Location: Salon B

Audience

School Leaders, Educators, and School Staff

Program Title

FIRED UP TEAMS: Strengthening Connection, Collaboration, and Cohesion through Active Listening and Team Building Activities

Program Overview:

Great schools are built on trust, collaboration, and strong relationships. This interactive workshop teaches attendees team-building activities, the power of meaningful questions, and active listening strategies to deepen connections among teachers, staff, school leaders, and their students. Through engaging, hands-on exercises, participants will discover how to build trust, foster open communication, and work as a united team to create a thriving school environment where everyone feels valued and supported.

Each participant will receive a **FIRED UP TEAMS Connection Toolkit**, containing reflection questions, team-building exercises, and listening strategies to support ongoing collaboration and trust-building efforts in the classroom, staff meetings, and the breakroom.

This workshop inspires school teams to **SHOW UP** for one another—transforming schools into places of unity, support, and success where everyone feels a valued member of the team!
