

Academic and Career Planning for Grades 3rd-8th at Fontana:

The ACP has 4 pillars which are Know-Explore-Plan-Go! Classroom teachers and the School Social Worker will work with students in grades 3rd through 8th in a developmentally appropriate way to know, explore, plan, and go. They will document this process using Xello <https://xello.world/en/>. Students will meet ACP requirements with Xello through the 4 pillars:

The ACP has 4 pillars which are Know-Explore-Plan-Go!

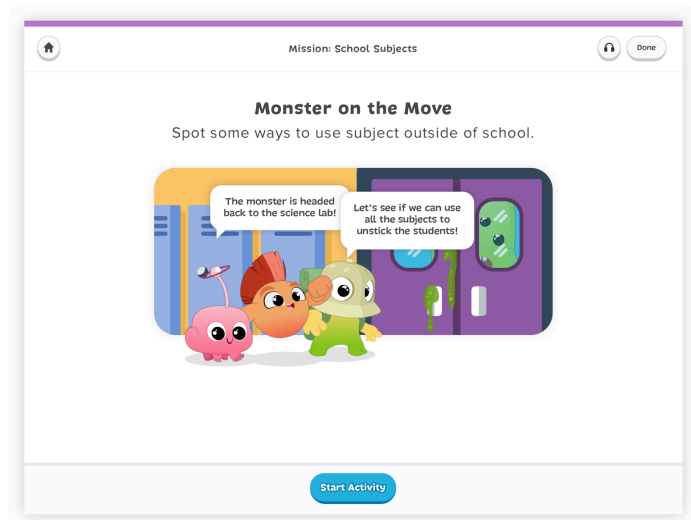

Know → Tied to building self-knowledge through the **assessments** and filling in the section of their profiles such as their **interests, skills, etc.**

Explore → Students will **explore careers, school and majors and save their options.**

Plan → Students will be able to create multiple plans for themselves in their **Goals & Plans section**, which will pull in their saved options.

Go! → Students' profile carries through from 6-12 and so they have the ability to **re-evaluate at any point, as they gain knowledge, experience and skills.**
