

Règlements:

But du jeu: Amasser le plus de paires de termes semblables.

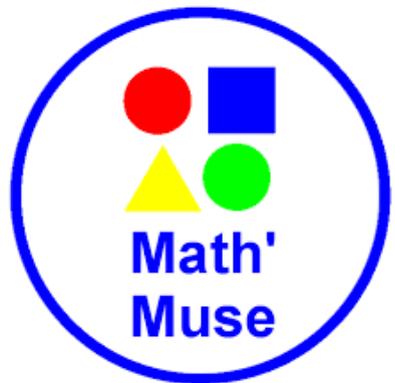

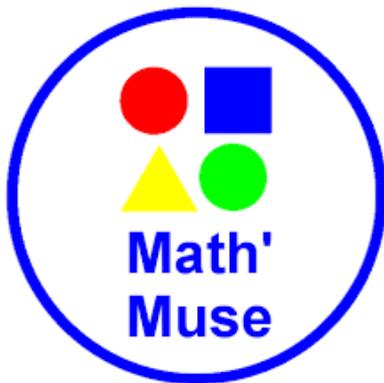

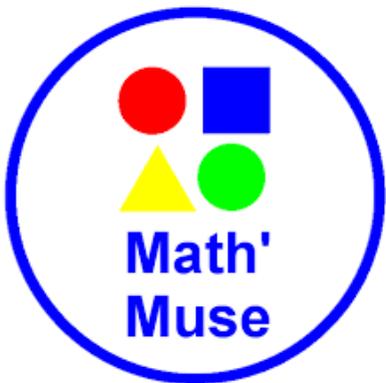

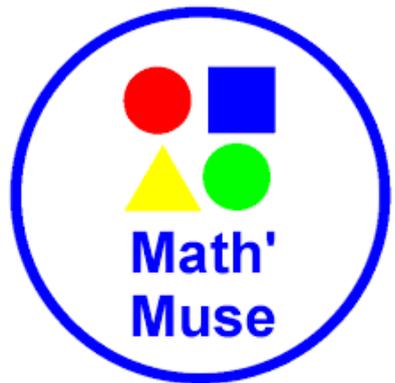

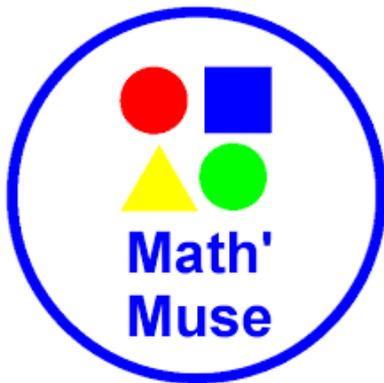

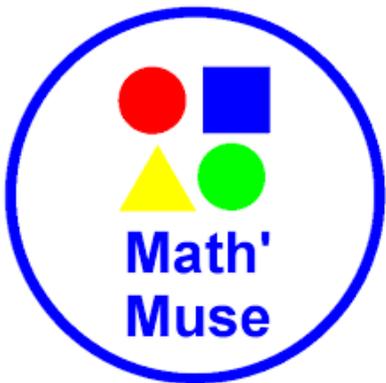

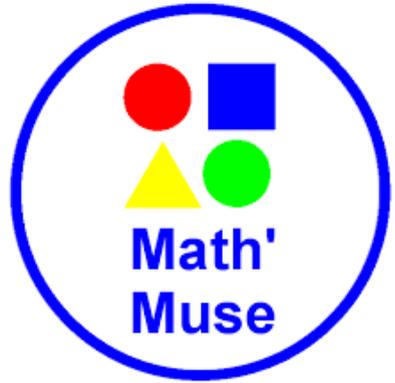

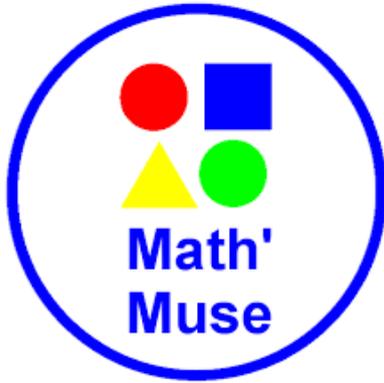

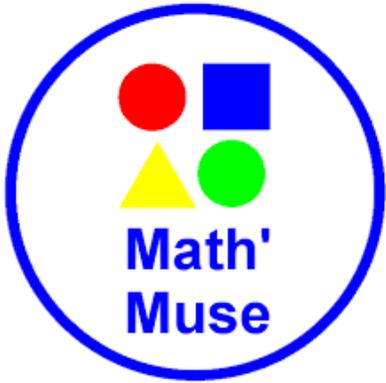

Préparation:

- Un joueur brasse les cartes et en distribue 4 à chaque joueur. Les cartes restantes forment la pile au centre de la table.
- On place une cuillère de moins que le nombre de joueur au centre de la table, à côté de la pile de carte.
3 joueurs = 2 cuillères
4 joueurs = 3 cuillères
- Le plus jeune joueur commence à jouer.

Déroulement:

- Le premier joueur pige une carte dans la pile centrale.
- S'il obtient une paire de termes semblables, il attrape une cuillère. Les autres joueurs doivent alors prendre une cuillère aussi. Le joueur 1 pige alors une carte dans le jeu du joueur qui n'a pas eu de cuillère. S'il obtient une paire à nouveau, il reprend une cuillère. Sinon, il dit "passe".
- S'il n'a pas de termes semblables, il dit "passe".
- Le joueur suivant pige à son tour une carte sur la pile centrale. ETC.
