

Automation Workflow Checklist

This checklist will guide you through the steps of setting up automation workflows for your travel business. Use this to streamline your processes, reduce manual work, and save time.

Step 1: Identify Repetitive Tasks

Make a list of the tasks you do frequently that could be automated. Common tasks include:

- - Sending client follow-up emails.
- - Booking confirmations and reminders.
- - Invoicing and payment follow-ups.

Step 2: Choose an Automation Tool

Select a tool like TravelPro Suite (TPS) to handle your workflows. Make sure it integrates with your existing systems (e.g., CRM, booking platform).

Step 3: Set Up Automation Workflows

For each task, create an automation workflow. For example:

1. Follow-up Emails:
 - - Trigger: When a client inquiry is received.
 - - Action: Send a personalized follow-up email automatically.
2. Booking Confirmations:
 - - Trigger: When a booking is confirmed.
 - - Action: Send a confirmation email with trip details.
3. Invoicing:
 - - Trigger: After a booking is confirmed.
 - - Action: Send an invoice to the client automatically.

Step 4: Test and Optimize

Before launching the workflow, test it to ensure it runs smoothly. Adjust any messages, timing, or triggers as needed.

Step 5: Monitor Performance

Track how your automations are performing. Are they saving you time? Are clients responding better? Optimize your workflows based on feedback and performance data.

By following this checklist, you'll streamline your business, giving you more time to focus on client relationships and growing your travel business. Start with one workflow and build from there!
