CLARITY FAQs

Why did Beaver choose Clarity for Contracts & Billing?

We have chosen Clarity as our contracts and student billing provider in order to better serve both our current and prospective families. The switch to Clarity for financial aid was so successful that we want to continue to enhance the family experience with Clarity's Contracts & Billing. We are confident this change will make enrollment and billing processes easier for families.

Is my information safe with Clarity?

Beaver takes the privacy and security of your personal information very seriously. Clarity is certified for both GDPR and SOC2 and uses enterprise-level security standards, including end-to-end encryption of all personally identifiable information. For more information, refer to [Clarity's Privacy Policy](#).

Can I complete my child/children's enrollment using my phone or tablet?

Yes! Families can sign contracts, pay tuition, and incidental bills directly from their phone or

tablet.

Will I be able to set up autopay for tuition payments?

Yes! You can choose to set up autopay for tuition and/or for incidental charges throughout the school year.

Will I be able to see copies of current and/or previous contracts/invoices?

You will be able to view and download all current contracts, bills, and payments in the family portal. Please note that because we recently switched to a new enrollment platform, Clarity, only contracts from this year onward will be available. Starting next year, families will also be able to access the previous year's contract, but contracts from before the Clarity conversion will not be available.

What forms of payment can I use with Clarity?

All checks and wires should be sent directly to Beaver, and the payments will be recognized in Clarity. The Clarity tuition billing platform also allows you to pay by ACH, bank account, or credit card (Visa, Mastercard, & Amex). Processing fees do apply with credit cards. Please contact [Marie Downey](#) for wire information.
