

# Problem catalogue, deepening of Viby's history

## ***Generally***

Historical travel guide for Viby. A map with places that had historical significance plotted and with a short description. Finished.

## ***Hunter Stone Age***

Baltic Sea coastline in Viby - year is uncertain. In progress.

## ***Before 1000 BCE***

Victim burial place on the mountain between Getingeberg and Nordankyrka? Sacrificial places around Vibysjön, e.g. near Viby / Lundby äng / Sjörs / Skävi/ Borgholmen – Skävi roots?

A 3-dimensional map of Viby should be produced. It could be used as a basis for adding layers of changes in chronological order (farms, villages, roads, other buildings, agricultural land, forest, lakes, etc.). The Land Survey's maps and the program Minecraft can be used. 3-d maps are available at RAÄ, historical maps.

Farm history. The history of the largest farms from the Iron Age to Middle Ages.

## ***500 BCE – 0 BCE***

When did the Tivedsleden start to be used regularly? The development of the road section Sand – Salsbro – Vallby – Höga? Subproject idea: The development of non-agricultural activities (manufacture of weapons, tools, clothing, shoes, etc.) until the cities take over (2000BCE – 15th century).

## ***400 – 800 CE***

One of the "judge rings" at Ånnebrunn is completely overgrown, it should be cleared and planted with grass. What about the other "judge rings"? A sub-project examining Viby's referee rings is needed. Description, function, age, etc. A rough age assessment is now available in "From the Pagan Iron Age to ....."

## ***800 – 1050***

How did iron production develop from bog ore-based to iron ore-based? When did the development take place and who was behind it? There is an essay that will be continuously updated with new findings.

## ***Prehistoric times***

Mobility and contacts. DNA technology is developing rapidly and new research on population movements is beginning to flow in. What contacts were there outside the home village? Trade

contacts? Marriage contacts? Party places? Throughways? Sacrifice sites? Court locations?. New project has started.

## **1050 – 1520**

New establishments of agriculture (crofts) on the commons of the plain and the later district commons. A description of the process, when, where, how. A first attempt to describe the process can now be found in the "Cultivation expansion".

The Sand Torp Cat, exactly where was it found. Why was it hidden there? An essay is now available. It contains many question marks.

The building history of Viby church is unclear. Did the first Christians use a large courtyard hall for their rituals or did they build a wooden church? Where did they bury their dead?

The foundation of the first stone church was excavated in 1933. The material contains ambiguities and is incomplete. In principle, only the foundation of the nave is documented. Was there a narrow cow? Was there a tower? When was the church converted into a hall church? Who decided and financed? An essays is published.

What was the background to why the Antonites started building the very large church in Ramundeboda around 1500?

The formation of the parish, how did it happen? A proposal is now published.

"Folkunga Gods" a forged letter from the 15th century. The story behind it? Treated in a separate essay.

## **1520 - 1600**

What is the reason for the number of salvation farms being so many and the tax farms being so few? An attempt at an explanation can be found in "Power, social organization and ownership" and "From the Pagan Iron Age to ....."

The position of the many rural residents in Viby? Status and functions of the local government?

Lars Siggesson Sparre's fief of Närke. How was the county/Viby administered?

District seal, hand/glove? Why?

## **1600 – 1721**

What local taxes and fees occurred in Viby? For example. bellman's allowance (5), executioner's fee (80), quarteringsman?, rotelejning, maintenance divided jack, other rote commitments, sheriff's and county chief's allowance (80)

Have there been any witch trials in Viby in the 1660s - 70s?

Number of soldiers' barracks late 1700s or early 1800s / number of rotas/size rote? The data may possibly be taken from the church records.

## **1721 – 1830**

Different root systems emerged within the parishes. For example. jack roots, school roots, push roots, poor roots. How did this develop in Viby? How long did the various systems work?

In the war archive there is a very nice map of the Vibysjö area, of which I only have a part. I now have access to it. Sub-project proposal: The history of the map and Svea fortress in Karlsborg (see separate essay).

## **1830 – 1945**

How were the locally placed civil servants and shop stewards affected by the expansion of the central offices and authorities. Did the information routes go through the governor or direct contacts or through local organizations. Which local leaders/authorities were there in Viby? Priest/ church assembly, bell ringer, school teacher, midwife, municipal leader/municipal assembly, crown sheriff, quartermaster, gamekeeper, innkeeper, postal clerk, stins, bailiff, district chief, judges, etc.

During the 18th-19th centuries, the local-individual initiative of the possessed farmers/parishes was moved for e.g. school, poor care, etc. to follow central decisions at national level. What did that change process look like from a local perspective?

Have there been strikes in Viby in the 19th and 20th centuries.

Organize a digital image and map database for Viby. Extensive material is available in Bygdebänd, but the search capabilities need to be developed. Some maps and pictures can be collected under a separate heading in the website.

Is there a Viby logo or appropriate symbol? Or some color/pattern symbol, e.g. in the Viby suit? Vibyby? Answer: Peony rose

The history of Torpen in Viby (Viking period and onwards). Compilation of the rich material available for recent times.

The development and change of the Vretstorp trade. Expansion periods, profitability, assortment, specialization.

The development of housing standards during the 20th century. Country type - urban area. Different "social groups".

Compare the development between country and urban area 1860 - 2012. Big differences in 1900, small differences in 2013?

How did free time change during the 1800s and 1900s.

The position and function of the church in society. Changes 1800 – 2000.

Private initiatives such as lighting association, water association, sewage?, electricity?

## ***1945 – 2012***

Agricultural statistics: 1850 – 2012, number of farms in size classes, number of people in agricultural households, production direction, production (volume or value).

Digitization of the Viby homestead magazine and We in Viby (already partially available), searchability.

Viby after the municipal merger. Greater municipality versus village. How does the village live on?
