

Here are the limited prep materials for the **2021 WFCA State Tournament**. This link has been shared with you (the coach) to distribute appropriately to your students. While there is nothing stopping you from simply forwarding this link to your students to prep as they choose, we would hope that you would embrace the integrity of the events and aid your students in their limited preparation. We feel this approach best mirrors the original intent of these categories. Thank you and we wish your students the best.

An additional note for **RADIO**, it has been decided that the student's camera must be on and that the student doing the performance is visible on camera. Judges will be asked to not consider students positioning in front of the camera with regards to rule #4 (*The speaker is to be seated in profile position to the adjudicator*), as students may be using the device that they are recording with as their radio script.

Round 1 **Radio Packet** link -
