

Next Steps

Date 1/22/25

Tonight the committee heard presentations from our Elementary Math and Literacy Coaches. Each shared what they do in their role, impact of their work, and some challenges. Each coach explained the components of a coaching cycle versus a consult cycle, versus the types of professional development they do across the RSU. Their presentations are linked in our agenda and minutes of our meeting.

The committee also had an update on the alignment of the Habits of Work at the secondary level and the process of implementation for the end of the second quarter.

Christine will share this information at the next board workshop.

Next Month, the committee will hear from all the Principals as they will share their winter data results, reflections, and updated plans of actions based on growth data.

The next meeting is scheduled for the Wednesday after vacation, February 26th from 3:30 - 5PM.
