Dear QCVA Family,

All Arizona public schools are required to administer state-mandated assessments. These assessments serve as a valuable tool, offering stakeholders, including parents, insights into a student's academic progress. By state law, non-compliance with testing requirements may result in students being ineligible for participation in Arizona online instruction. The [ADE Assessment Parent Resources](#) has detailed information for all state tests.

Please mark the following state assessment dates on your calendar and ensure your student is present on these days. Your support is greatly appreciated.

What assessments will be administered?

[AASA \(7th-8th grades\)](#) is a State-Wide achievement test for students in grades 7-8. All Arizona public school students will take the grade-level assessment in English Language Arts and Mathematics. The test is administered in three testing sessions.

[AZSCI \(8th grade only\)](#) is a State-level assessment that measures student proficiency in the Arizona Academic Content Standards in Science. The test is administered in one testing session.

This letter is to inform you that **your student must attend the following testing sessions.**
