

Dated: March 2, 2026

NO WAR ON IRAN. NO GENOCIDE IN PALESTINE. NO EXCEPTIONS.

The organizations and individuals who have signed onto this letter reject every frame that justifies war through patriotism, propaganda, fear, or retribution. We refuse to let authoritarian actors in the Trump regime use war to distract from political crisis, economic collapse, or the rise of fascism in the U.S.

While this was originally drafted on June 22, 2025 and updated on March 2, 2026, we continue to circulate this statement and the situation remains urgent until there is a sustained/lasting/real ceasefire. Please sign if you have not already.

[Endorse here.](#) | [Share On Social Media](#)

In the aftermath of yet another bombing of Iran under Trump's regime, we say what we've always said: we will not be silent while the U.S. empire trades in death to consolidate power.

This is not freedom. This is not a defense of democracy. This is an attack. This is an act of war.

The bombing was an escalation— of violence, of instability, of decades of U.S. aggression. **We know the cost is never paid by the people in power. It's paid in blood by civilians, by working-class people, by women, children, and the elderly** — in Iran, Palestine, across Southwest Asia, in Haiti, Sudan, and DR Congo, and here at home.

The U.S. military budget in 2025 is \$849.8 billion while our communities are suffering from empty food pantries, unaffordable rents, and crumbling schools. We know across the U.S. people are broadly opposed to war on Iran and would rather see our government invest in the basics that we need to live and thrive: care for our children, access to quality healthcare, housing, education, clean air and water, and a functioning democracy and economy.¹ We cannot remain silent and be complicit in the violence against communities anywhere.

The strikes on Iran are an extension of the alliance between the U.S. and Israel, whose authoritarian regime has carried out a genocide of the Palestinian people in Gaza for nearly 900 days. The U.S. has funded the murders of at least 55,000² people and enabled the starvation of nearly 2,000,000 more³. We must act now to stop U.S.-funded⁴ genocides and war before tens of thousands, if not millions, of more lives are claimed. Militarism has never been the thing that

Dated: March 2, 2026

brought lasting peace; people having access to what's necessary to meet the most basic human needs and committing to caring for their neighbors is what's necessary for peace.

This playbook has been seen before—and **it has wreaked havoc for 24 years**. The U.S. continues to rely on racist and manufactured threats to justify endless war, from the false pretenses used to invade Iraq to the current targeting of Iran. These interventions—from Iraq, Afghanistan, Somalia, Yemen, Libya, Syria, and Palestine—have devastated entire regions, displaced over 38 million people, and killed an estimated **4.5 to 4.7 million**—including roughly **900,000 direct deaths** and **3.6 million indirect**⁵. The campaigns have also cost the American public at least **\$8 trillion, half of which has been directly funneled to war contractors**. This global war machine, now active in at least 85 countries, must be condemned, including the rise in hate and surveillance targeting BAMEMSA (Black, Arab, Middle Eastern, Muslim, and South Asian) and SWANA (Southwest Asian and North African) communities domestically through the so-called 'War on Terror'⁶. The violence abroad and repression at home are two sides of the same policies, and both demand urgent accountability and opposition.

To be clear:

- U.S. wars around the world fuel repression and violence at home — more policing, more surveillance, more crackdowns on dissent, more threats to any semblance of democracy left, more hate crimes targeting vulnerable communities, and more money in the hands of the corporate, wealthy elite.
- Since 1953, the U.S. has initiated coups, deployed sanctions, proxy wars, and drone strikes to undermine Iranian self-determination and sovereignty. The U.S. has no moral ground to stand on.
- This latest escalation is being directly provoked by the State of Israel to both take attention away from the escalating genocide against Palestinians and to further insulate Netanyahu's control of the region.
- There is no such thing as a "surgical strike." Every bomb dropped is an act of violence.
- Our tax dollars directly sustain these wars, we have a responsibility to condemn them.

We call on all people of conscience — especially those in the U.S. who are concerned about the growing threat of authoritarianism and the future of a genuine multi-racial democracy — to organize, to resist, and to say with clarity and courage:

- No war on Iran
- No genocide in Palestine
- U.S. out of everywhere
- Fund life, not death

We don't just want peace — we want justice, dignity, and liberation for all people targeted by the U.S. war machine.

WHAT WE CAN DO:

- **Individuals and progressive organizations** are called to [endorse this letter, share it broadly, and encourage more endorsements](#) from grassroots organizations, faith leaders and places of worship, unions, scholars, and all people of conscience.
- **Plan or attend a local demonstration** to express your community's solidarity and join the calls for an end to war, genocide, and an end to U.S. military and financial aid.
- [Contact your congressional representatives](#) to demand they take immediate action and support the upcoming 'War Powers Act' to hold the Trump regime accountable for an unauthorized act of war.
- Connect with a local or national organization organizing against the U.S. war machine year round.

To our siblings in Iran, Palestine, Lebanon, Syria, Yemen, Iraq, Afghanistan, Haiti, Sudan, DR, Congo, and beyond: We see you. We are with you. We will not stop fighting for a world where no one has to live under the shadow of U.S.-Israeli bombs, forever wars, and the violence of war and militarism.

While this was originally drafted on June 22, 2025 and updated on March 2, 2026, we continue to circulate this statement and the situation remains urgent until there is a sustained/lasting/real ceasefire. Please sign if you have not already. Please sign if you have not already.

[Rising Majority](#) is a broad-based coalition of Black, Indigenous, people of color (POC), and multiracial groups building movements for a radical democracy and an economy that works for all people and the planet. In our efforts, we build power to respond to the urgency of this political moment and the assaults on the well-being of our people, as well as the bold and visionary alternative that our communities deserve.
