

Chris' Keepsakes

Crafting Keepsakes from cherished clothing

Please carefully read ALL instructions below

BEFORE preparing your shirts:

Shipping Preparations

- Launder all shirts without perfumed detergents or dryer sheets and lay flat as they come out of the dryer. All animal fur should be removed.
- Do **NOT** cut your shirts before sending them! You will be sending me the whole T-shirt, and I will do the dirty work.
- Decide which T-shirts you want to use in your quilt. If you feel you have too many T-shirts, separate out your favorites to use first and send the remaining shirts to be used if needed. Please clearly indicate and label your favorites separately from the backups. All the T-shirts that are not used will be returned to you.
- Stains--if they are fine with you, they are fine with me! Some stains can hold certain memories or add character to your quilt. I do NOT remove stains but will try to work around them as best as I can.
- I can use T-shirts, shorts, sweats, hats, pants, Jerseys, etc. If it's material, I can use it.

A few cautions are listed below

- Place your shirts in a re-sealable plastic bag. Ziploc makes some lovely extra-large bags!
- Place your name and contact info inside the bag with the shirts. (for safer shipping)

Items that are *NOT* Recommended for T-Shirt Quilts

**These are recommendations meant to inform customers of possible risks or undesirable results.*

- Shirts that are Dry Clean Only or cannot be laundered at home.
- Dry weave, coarse polyester, or Neoprene- with these items the stitches from the quilting can perforate or rip the fabric over time.

Ready to ship?
