**\*\*Your High School\*\* YAA Chapter blah blah  
Constitution 20\*\*-20\*\***

**Goals**

**\*\*General activism club template, change accordingly for specific activism\*\***

Our club seeks to lead an organized collective of students who are committed to bringing about change to social or political institutions that threaten the rights of the environment or human rights. In addition, the group also aims to spread awareness and knowledge associated with these causes.

**To join:** Must be determined to advocate for human rights and environmental protection.

**Officers/Voting Procedures**

**President:** Determines the general direction of the club's activities and ensures coordinated and purposeful work & lessons. Organizes and plans future events with consent of the club and relaying information to members. Will work with other officers and advisors to coordinate guest speakers.

**VP:** Assists the president in duties and stands in when the president is unable. Will act as a secretary when documenting things are needed. Will work with other officers and advisors to coordinate guest speakers.

**Events Manager:** Coordinates with the President and VP to plan and organize future events with the consent of the club. Responsible for distributing vital information to all members.

**Graphic Designers (2)** (Make Instagram posts + club infographics): In charge of designing all Instagram posts (should be two a month for each person)

**Social Media Manager:** In charge of organizing social media platforms aimed at spreading awareness and giving fellow students opportunities to donate or participate.

**Secretary:** In charge of all necessary communication between teachers, members and potential organizations.

**Treasurer:** Handles all money entering and exiting the club's responsibility. Will be in charge of overseeing the funding for organizations and organizing ways in which we can start fundraisers for our cause.

**Procedures:** Elections are held in the last month of every school year. Emergency elections can be held when deemed necessary.

**Club Rules and Agreements:**

1. **Be respectful.** We are a non-partisan club but everyone has different political beliefs. We would love to hear you express your beliefs, just not in a way that may bash other club members or create a toxic environment.
2. **Be open to learning.** We will be talking about things on the range of the political spectrum: make sure to keep an open mind and be willing for change.
3. **Prioritize yourself.** We want you to look forward to this club: that won't happen if you feel burnt out. We don't track attendance so there is no pressure to come to every single meeting. Life happens, people need breaks, make sure you always prioritize yourself.
4. **Make new friends!** We want to build a community of young people that share the desire to be in politics or to be a leader. Make sure to be friendly to other club members and be open to making new connections.

**Service to School and Community**

Educate students on global issues that regard human or environmental rights and to unite students through a mutual desire for change. We will seek to donate to organizations that align with our causes if we have the resources to do so.

**Meetings**

\*\*Will be held at this time on this day every week\*\*

**Advisor:** \*\*someone and someone\*\*
