

Privacy Policy

Trippa

Last updated: August 26, 2026

Contact: trippa@icloud.com

1. Who we are

Trippa is a travel sharing app on this iPhone. You can browse posts, watch short videos, keep two-sided postcards in a Card Album, and keep a profile on this phone. Trippa does not book travel, give maps or navigation, request location access, or pair people for dating.

2. Information we collect

Trippa does not create a password account. A local session starts when you tick the box and tap **Come in**. We store only what you create or choose on this device:

- Profile: display name, bio, and optional photo
- Posts, videos, postcards, and trips you send
- Likes, saves, comments, follows, reports, and mutes
- Stamp balance and fulfilled App Store transaction identifiers (so the same purchase is not granted twice)
- Consent that you have read the Terms and Privacy Policy

We do not collect a password, email address, phone number, or device location. The city on a note or postcard is the city you type yourself. We do not sell personal information.

3. How we use information

We use this information to:

- Show Posts, Videos, Card Album, and Profile
- Let you like, save, comment, follow, report, and mute
- Credit stamps after an Apple purchase and spend them as tips on this phone
- Keep sample people available after you Delete my stuff

4. Where data is stored

Posts, videos, postcards, photos, comments, reports, mutes, follows, and the stamp balance stay on this iPhone. Media you pick or record is copied into the app; only a path

relative to this app's Documents folder is stored. Trippa does not operate a user-account server and does not sync that library to our own cloud. Deleting the app removes the sandbox.

5. Camera, microphone, and photos

These permissions are requested only when you start the matching job. Declining a permission leaves browsing available.

- **Camera** — film a video, take a photo for a postcard, or take a profile photo
- **Microphone** — sound on a video when Record with sound is on; silent videos have no audio track
- **Photo Library** — pick a photo or video you already have

Nothing is captured in the background.

6. Face Data

Trippa does not collect, process, or store face data.

- The app does not use face recognition, face detection, or biometric templates
- Camera and library files are ordinary photos and video. We do not analyse faces in those files
- We do not share face data with any third party
- We do not retain face data, because we never collect it
- Photos and clips stay on this iPhone and are not uploaded to a Trippa server

Review answers:

- What face data does the app collect? None
- Purpose of face data collection? N/A, we do not collect
- Is face data shared with third parties? No
- Where is face data stored? N/A
- How long is face data retained? N/A, never collected
- Specific section in privacy policy? Face Data section

7. Sharing

We do not sell your data. We do not share your posts, videos, photos, comments, or stamp balance with advertisers, analytics SDKs, or other third parties.

One case sends something off this iPhone, and only then:

- **Stamp packs.** Apple processes payment through StoreKit. Trippa never receives your payment-card details. Apple's privacy policy covers the payment.

8. Stamps

Stamps are a local consumable credit with no cash value. Optional packs (everyday stamp books and special-issue packs) are purchased through Apple StoreKit. The same Apple transaction identifier is granted once. Tips of 10, 30, or 60 stamps come out of the stamps on this phone and are not a new App Store purchase. There is no subscription. Browsing Posts, Videos, and Card Album does not spend stamps.

9. Community safety

We have zero tolerance for objectionable, abusive, or illegal content. A report targets a single post or video and does not hide that item on this iPhone. Mute hides that person and all of their posts and videos from Posts, Videos, Card Album, and related lists; you can unmute them from Profile. We will take action on objectionable content reports within 24 hours, removing the content and ejecting the user who provided the offending content.

10. Children

Trippa is not directed at children under 13. We do not knowingly collect personal information from children under 13.

11. Your rights

From Profile you may edit your card, take a report back, unmute someone, log out (your posts stay on this phone), or Delete my stuff. Deleting my stuff removes posts, videos, postcards, and trips you created, your photo and name, and the stamp balance. Sample people who came with the app remain. Because this data is not kept on our server, we cannot retrieve a copy from the cloud after you delete it.

12. Changes and contact

We may update this policy. The “Last updated” date will change. Continued use after an update means you accept the revised policy.

If you have any questions, please contact us at trippa@icloud.com. We will respond to your inquiry within 24 hours.
