

**Subject Line :** Our ancestors' SECRET way of cleaning 🤔 or Do you know the ancient art of cleaning?

Over 3,000 years old.

It's a tradition that has been passed from generations prior.

From your grandparents, to your parents, to you today.

The investment of **time & effort** to give your home a re-birth.

### **Spring Cleaning**

You face dusty surfaces,

Grimy windows,

Fabric stains from the festivities,

Cooking appliances after war with turkeys,

Most important the craving for a fresh new home.

Our ancestors didn't need to clean windows, worry about fabrics, stress about restoring the appliances to their prime. Why? They didn't exist.

Yet they still saw the importance of cleaning what they had.

They understood the importance of doing a full house cleanse.

This was all for :

- 1). Restoring the good energy
- 2). Improving the mood
- 3). Creating order from chaos
- 4). Looking forward to cooling down in the evening with the comfort of a fresh new home.

Like baking a good cake, a fresh new home takes **time** and **effort**.

*"I wish there was a way to revitalize my home without the time and effort..."*

Great news. There is.

With modern technologies and a core value of keeping traditions traditional, we've created something for you.

A service for you that saves you the **time** and **effort** and gives you a **fresh new home**.

With the click of a button and a matter of hours you can have your home restored to its prime condition.

Everything from ceiling to floor, window to window, appliance to appliance.
