Day 2 (4days before the launch)

Email 2:

Subject:

- 1) Do you consider yourself lucky?
- 2) Hypnosis to get more clients?
- 3) I'm in 7 heaven

Body:

I feel like seven heavens...

Finally, I learned how to master the art of communication but I didn't expect that it would impact me so greatly in my life :)

First,

my relationships with people boomed

my love life got to a next level

my parenting skills improved

those for themselves are the most important things but I didn't expect

That was when I learned hypnosis and started to combine that into copywriting and selling...

My Business Skyrocketed!

This was an accident...

Didn't plan it,

but the skills that I learned gave me an advantage and selling became easy by itself...

Myron Golden says: *"When you say something is hard, it's not that something is hard, it's just hard for them because they don't understand how to make it easy."*

4 days and it's going to happen...

The skills you need to learn to increase sales in your business and become a confident copywriter + seller is handed to you.

Just saying:

"If you learn how to drive it doesn't matter what car you're driving"

So when you learn how to communicate and persuade,
you can drive your business, and
your personal life no matter where you're.

So in 4 days, NLP-SalesForce is launching and it's going to teach you how to drive people into your services and products.

P.S. I'll keep you up, so you don't miss the opportunity to have this **crazy 90% discount**. Just remember to follow every email I send to you this week and just because this is so important I'll send a couple of emails a day, so you don't miss out, ok?

Day 3 (2 days before the launch)

Email 3:

Subject:

- 1) This is Robbery
- 2) Unbelievable but True
- 3) Is This Legal?

Body:

I was in a hypnosis seminar and saw this hypnotist performing his act...
He brought people on the stage and did weird things,
basically just talking in a weird way...

After a while, people are just handing all their wallets to him!

This was when I was myself learning hypnosis and was closely watching techniques that other hypnotists do...

I realized that the technique he was using is something called:

- hidden commands and anchoring with stories

Don't worry after the show he returned everyone's wallet back but they were completely unconscious about what had happened...

What if you could learn skills like that?

What would you do?

Imagine that life goes just the way you want it and people are doing everything as you like them to do...

Like life is already planned to happen the way you want!

In 3 Days from now...

Toni Vallenius is launching his NLP-SalesForce (Fly your sales message under the radar)
An online course where he's going to teach you exactly that...

Hypnosis combined in copywriting and sales....

Exciting I know,

I'll update you when this opportunity arrives...

Sorry, it took so long, but...

Now it's time to let go of the B.S. and get to the facts.

It is now harder than ever to profit by just sending traffic straight to your offers.

Just a few years back, all you had to do was send traffic to links and collect fat commissions.

It is not like that anymore.

Now, if you want to make a lot of m.o.n.e.y, there is a lot of work involved.

UNLESS you know the secrets what the top copywriters are doing.
