

## PANTS FIT WORKSHOP WHAT TO EXPECT

We will be using Butterick pattern # 6845. We will not make pockets.

Please wear tight fitting leggings or tights for modesty. We will both tissue fit and fabric fit during the process.

Please buy the correct size by taking your HIP measurement where you are the fullest and refer to the pattern envelope for fabric amounts.

Before we meet, rough cut out the whole pattern pieces and dry iron press them, to save time in the workshop. Save and bring any large pieces of the tissue paper that has no markings on them.

Bring your pattern, fabric, notions, basic sewing supplies, markers and machine. Also you will need ½" Magic Scotch tape...sometimes hard to find, and reuseable tape.

On day 1, I will show how to prepare the pattern pieces for tissue fitting. We will spend the remainder of the day getting everyone tissue fitted and on to cutting the fabric for fabric fitting. Feel free to cut a muslin first or your fabric.

On day 2, you will continue where you left off the day before...you will pin the front to the back and baste. Then we will fabric fit.

I encourage you to ask questions and observe each other's fitting process. DO take notes.

After our two days together, please feel free to contact me any time for further guidance.

Looking forward to meeting you:

Claudia Parker Hughes
