

Argumentative T-Chart

Prompt: _____

After you have read, annotated, and highlighted all the pros (blue highlighter) and cons (yellow highlighter) for all the articles provided, add your facts onto the T-chart below. (AHA)

<u>Should / Agree</u>	<u>No/ Disagree</u>

- Once you have decided on the side that you are going to argue for, draw a star on top of that column. (remember, you want to choose the side that has the MOST facts to support your claim)
- Next, circle the TOP TWO arguments that you are going to use in your essay.
- Then, circle the weakest fact on the opposite side...this will serve as your counter argument.
- Lastly, transfer the information above onto the argumentative organizer on the next page!
